Introduction

Give your brand the web presence it deserves with the number #1 Odoo theme in the market: Theme Scita. One of the most elegant themes which is developed keeping 20+ industries in mind. We've designed this theme considering e-commerce, healthcare, fashion, finance, and many more industries. It is perfect for every business. Designing your website has never been this easy with our theme Scita.

Benefits of Odoo Theme Scita

- Helps in ranking your business higher with faster page loading speed.
- Theme Scita includes powerful megamenu, drag and drop snippets, elegant header footer options, and more.
- It is well-coded, organized, and modular to help you get the aspired look for your website.

Pre-requisites

- Following points must be followed before starting the plug-in installation:
 - You should login as an Admin in Odoo.
 - Check that your Odoo Instance is compatible for Scita Theme.
 - An e-commerce module should be present in your instance to use this theme.

Installation

Installation Steps

- Download the latest Odoo version. Go to website record and install Theme Scita from there.
- Download **Theme Scita** from ‘Odoo store’. Once downloaded, you will get folder with the name ‘theme_scita’.
- You need to add this folder in your addons directory and restart the Odoo server instance and update your App List. Now go to **WEBSITE -> Settings -> Website**.
- In website settings, select a website in which you want ‘Theme Scita’ to be installed.

The left screenshot shows the Odoo sidebar with 'WEBSITE' selected. The right screenshot shows the 'Settings' page with the 'Website' tab selected. The 'Choose a theme' button is highlighted with a red box.

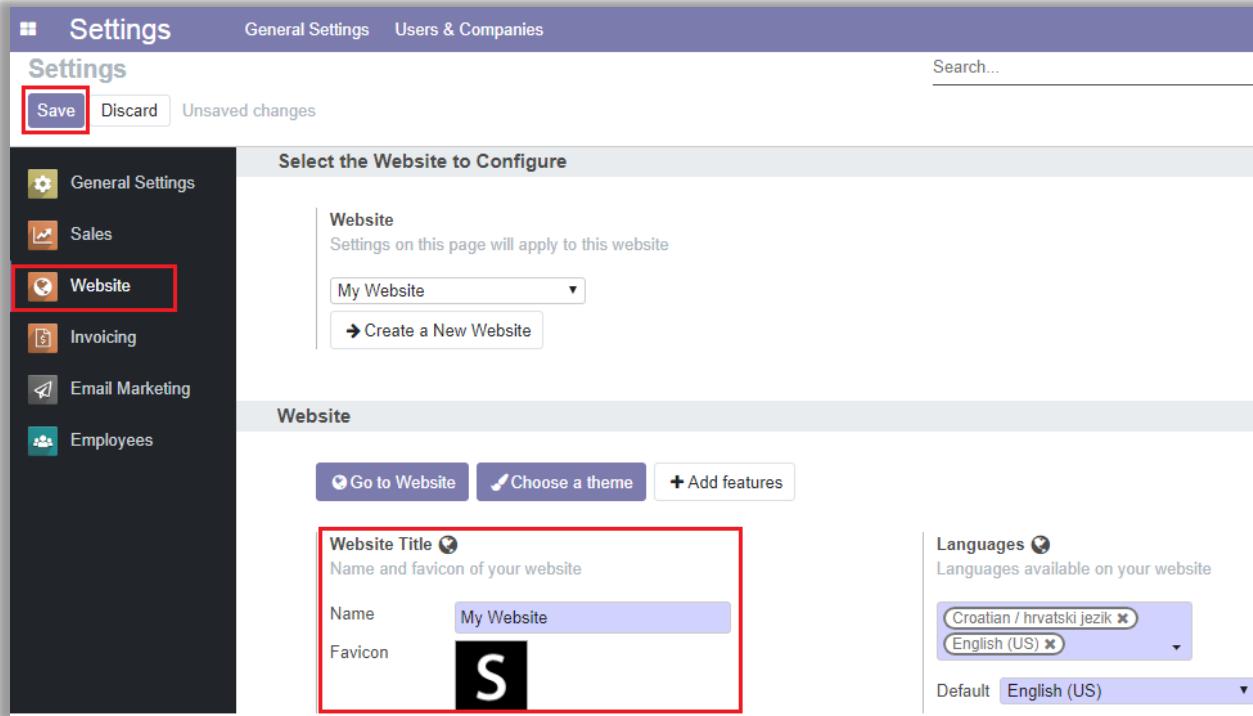

- Click on ‘Choose a Theme’ button. On clicking, you will get redirected to list of themes available.

The screenshot shows the 'Choose a theme for your website' page. The 'SCITA' theme card is displayed, featuring a green background with white text. It highlights 'Build a phenomenal website!', '35+ Best Industry Demos', and a list of features: 'Mobile Responsive', 'Fully Customizable', 'Ideal for All Industries', and 'Stylish 125+ Static & Dynamic Snippets'. At the bottom, there is a 'Start your Free Trial' button.

- Click on **Theme Scita** to install it in your website.
- After selection, click on **Save** button to save the changes.

- After installation, you can see theme details under the ‘Website’ section.

USER MANUAL: Odoo Theme Scita

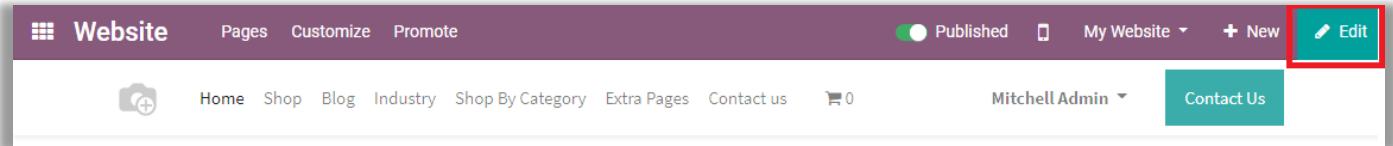

- From here, you can insert Website **Name** & upload a **Favicon Image** (icon/logo).
- You can configure other settings like Website Language, Default Language and many other settings.
- After Configuring all the setups, click on **Save** button to save the changes.

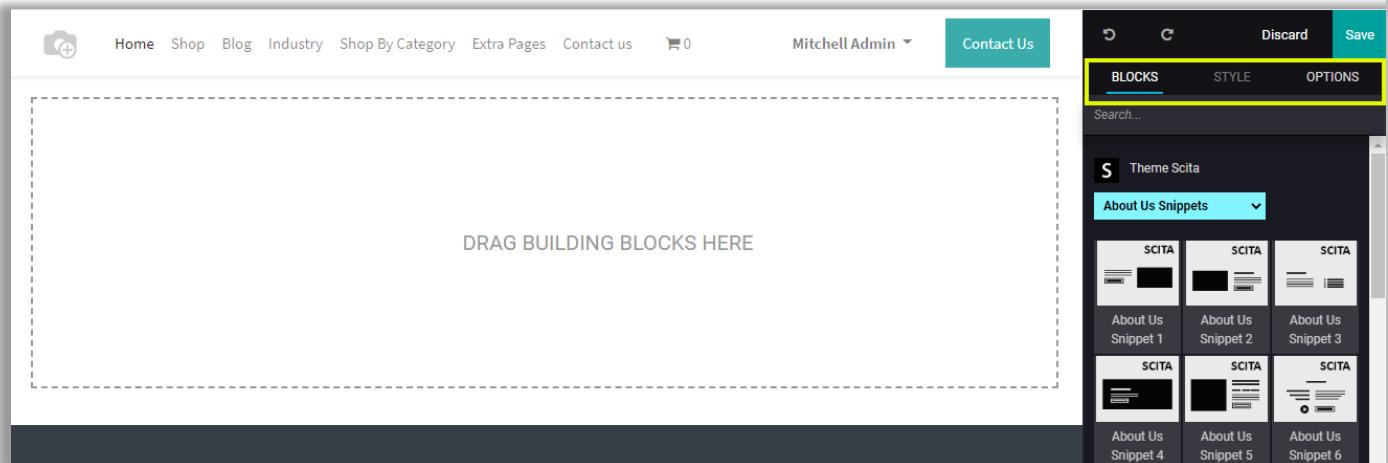

Theme Configuration

Customize Theme

- After Installing the theme, go to **Website** and click on the ' Edit' which is on right side of the page.

- After clicking on ' Edit', it will open pop up box with different 3 **tabs** to set/change the theme styles:
 - Blocks
 - Styles
 - Options
- From the available options, set the option which suits best for the website.

Blocks

- You will get the snippet list of the "Theme Scita" drop-down option under the "Blocks" tab.

Styles

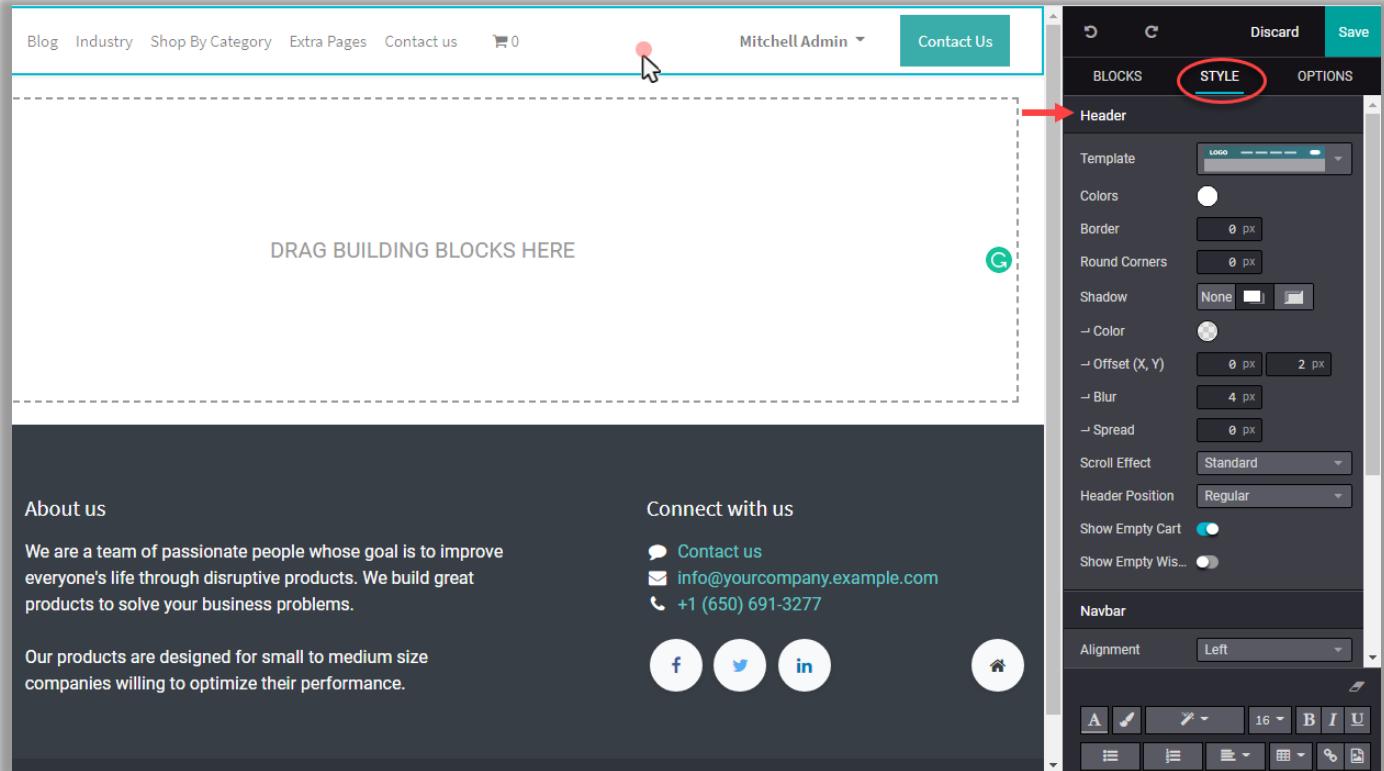

- You can customize the website 'Header' & 'Footer' under the "Styles" tab.

Options

- You can customize the 'Theme color' and its options like 'templates', 'fonts', 'buttons', etc. under the "Options" tab.

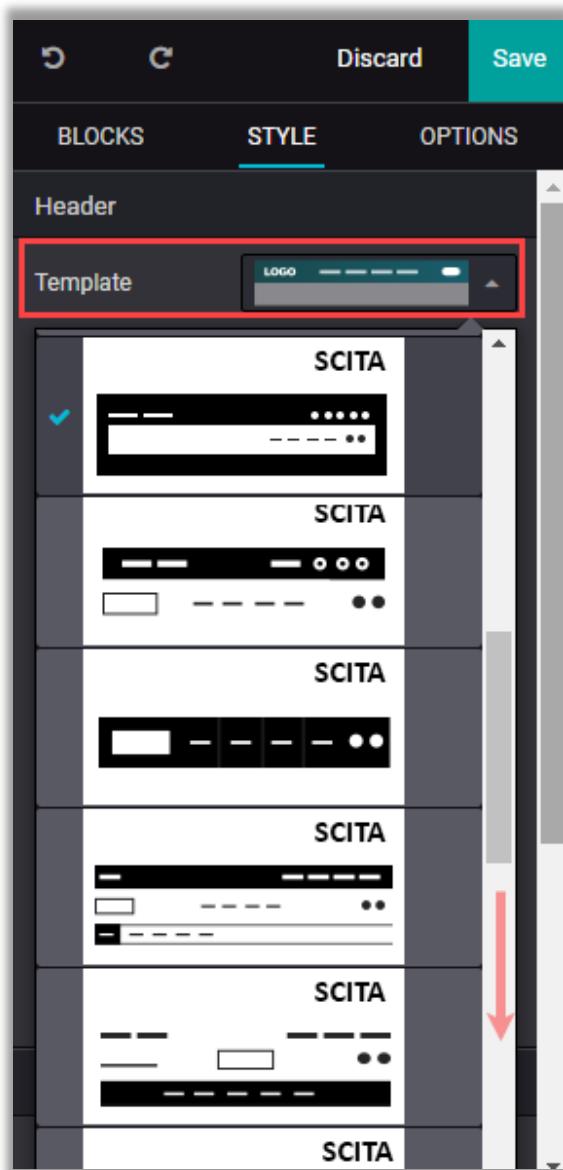

Header/Footer Configurations

- You can customize and configure the header section by 'double clicking' on it. Once you double click on the header section, the **Style** tab will be enabled from where you can configure and customize the options of the header section.

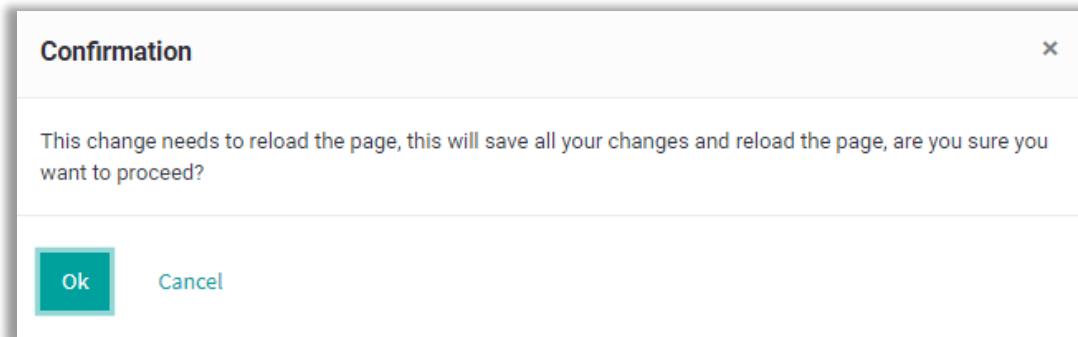

Header Style Configuration

- Under the “Style” tab, you can select the Theme Scita template for the Header.
- Clicking on **Template** option, it will show different header styles to choose from.
- Mainly there are **25+ different header templates** available in theme Scita.
- Select the template that works best for your website structure.
- You can customize header as per their requirement.
- After selecting any option, you will get the ‘preview’ as per the selection. By clicking on the **Save** (top-right corner), the website changes will be done.

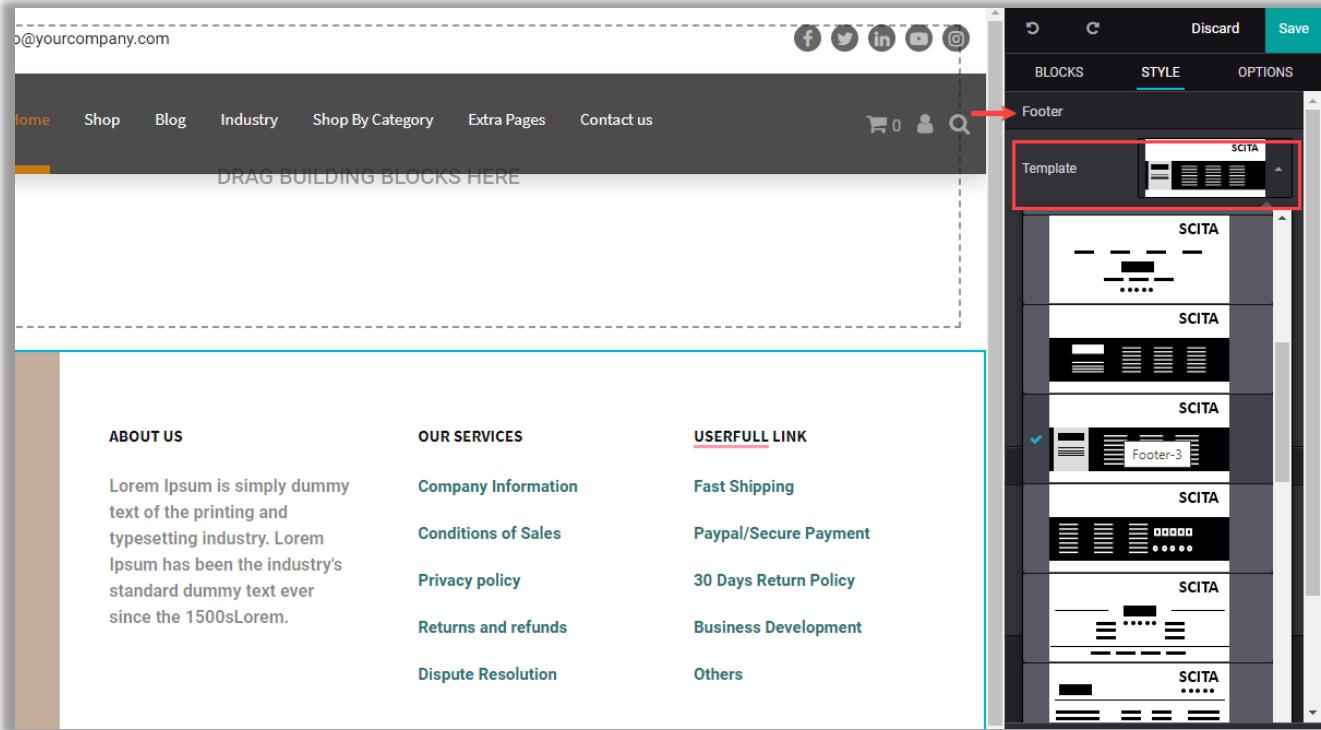

- When you select any ‘template’, you will get the confirmation message to load the webpage.

- Press **OK** to reload the page as per the selection of the Header template.

Footer Style Configuration

- You can configure the footer by selecting the **Footer template** of “Theme Scita”. You can customize the Footer options as per your website appearance. Once you select any template, it will ask a confirmation message to reload the page as per the changes you made.

Theme & Page Layout customization

- You can customize the Theme options and Page layout of your industry specific website (store).

Theme Colors

- Under 'Theme Colors', you can choose any color for your website appearance. By clicking on 'colors' icon, it will show color picker to select theme color.

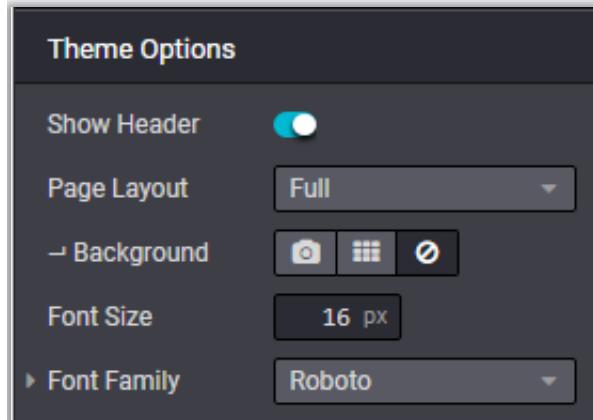

- Once you choose any color, it will ask a confirmation message to reload the webpage as per the changes and save the changes.

Theme Options

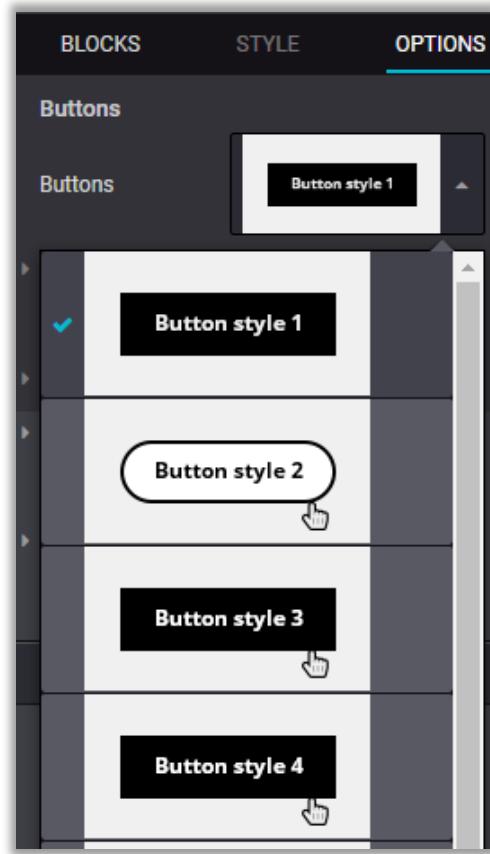

Page Layout

- Select the 'Page Layout': Full or Boxed. You can select the **Background Image or Pattern** for your website.
- Select the Font style from the 'Font Family' drop-down list.

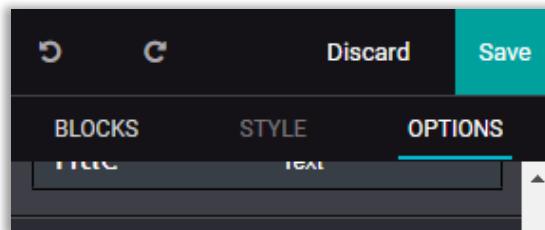

Theme Options → Buttons

- Click on Buttons drop-down option, it will show different button styles to select from.
- Mainly there are **8 different button** styles available. Select the style that suits best for website.
- By selecting any button style, you will get the confirmation message to reload the webpage for preview.

- You can set the Odoo default options like padding inputs & Website Settings.

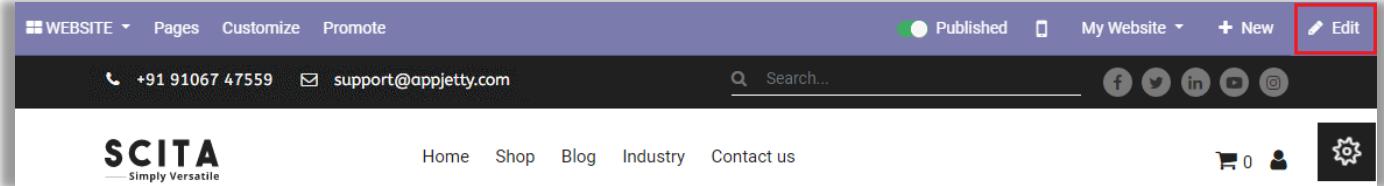

- Once you customize the Header/Footer, Page Layout, and Theme options, click on the “Save” button to save the modifications.

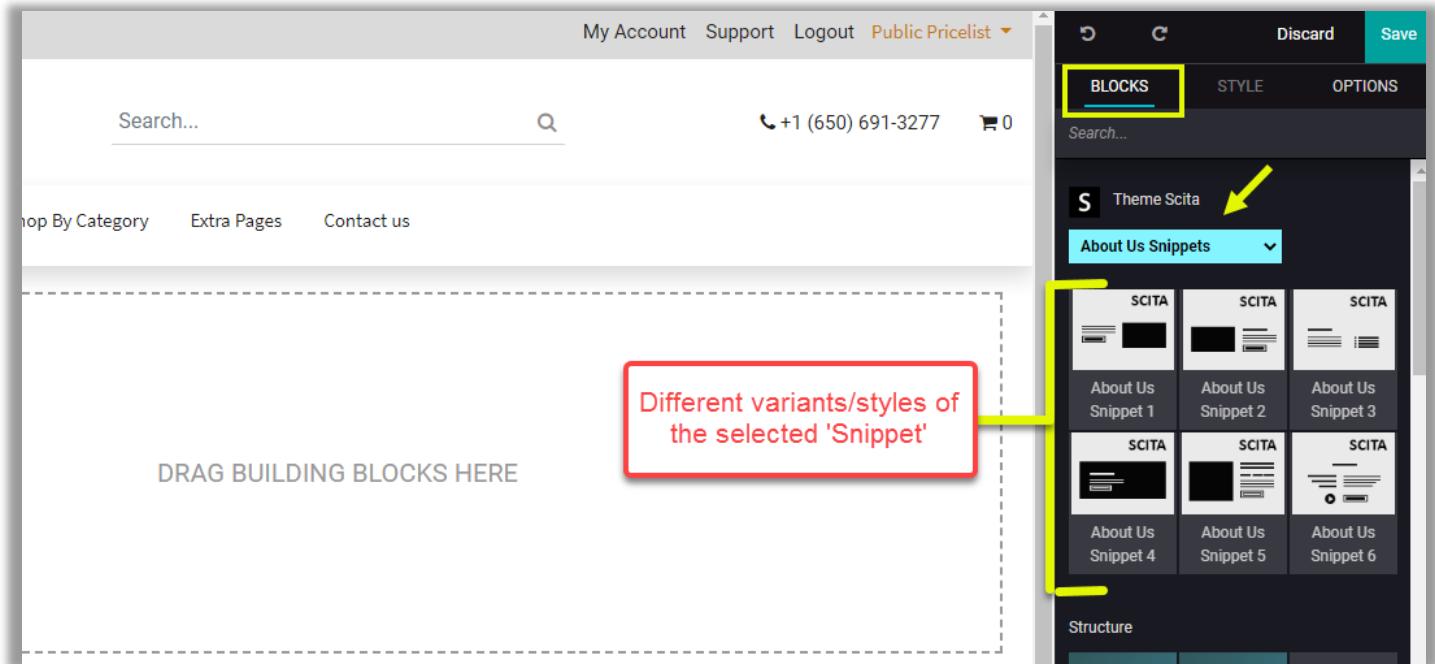

- Now, you can add the “Snippets” of the **Theme Scita** to design the industry specific website (Store).

How to add Snippets?

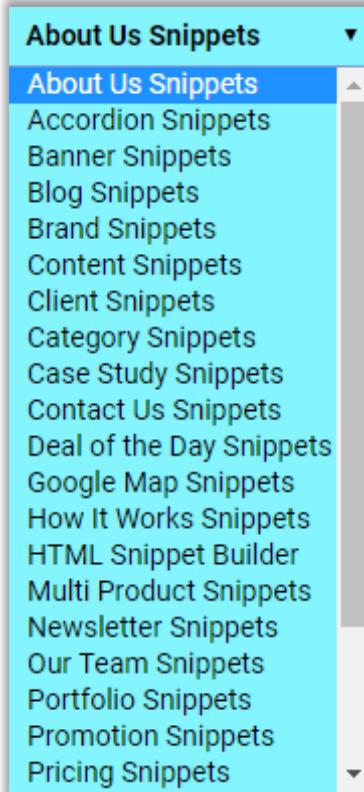

- Now, after theme customization, add the **Snippets** according to the website structure.
- To add Snippets, go to **Website** and click on **Edit** button that is available on the top right corner.

- Clicking on **Edit** button, a window on the left side with name “Theme Scita” will appear.

- You will find the **Snippets** drop-down option under the “Theme Scita” heading from where you can select a Snippet and drag and drop the snippet that you want to set on your website page.

- You will get the 'alphabetical' list of Snippets.
- Select the required **Snippet** from the drop-down list.

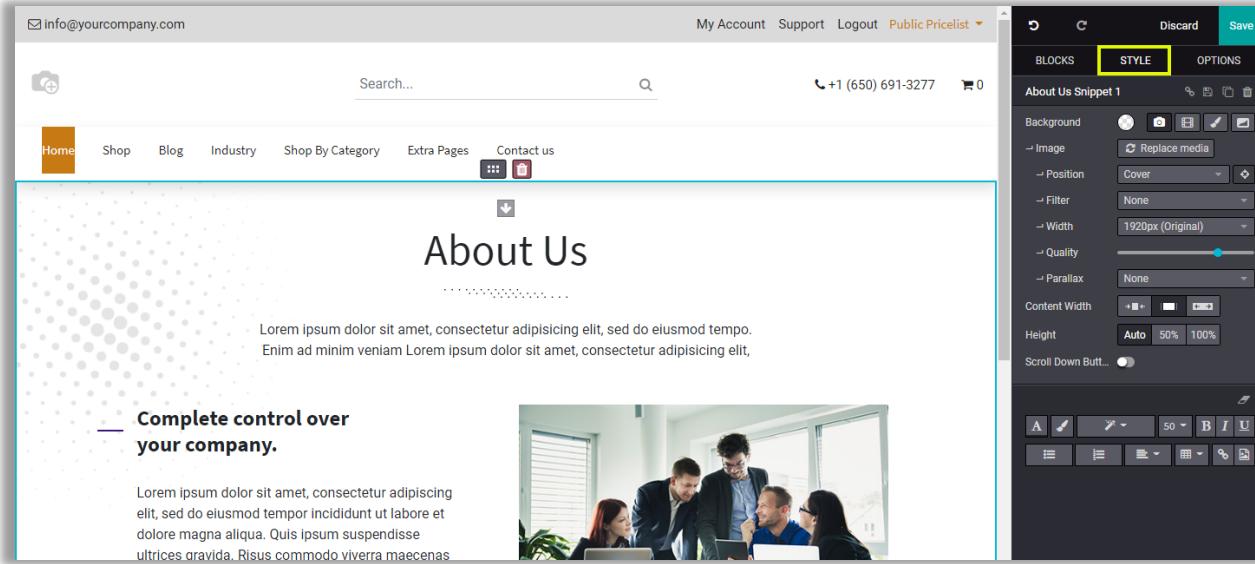

- After selecting any Snippet, you will get its variants that you can place on the page simply dragging and dropping.

A screenshot of the Odoo theme editor interface. On the left, there's a navigation bar with links for Home, Shop, Blog, Industry, Shop By Category, Extra Pages, and Contact us. A search bar and a phone number (+1 (650) 691-3277) are also present. On the right, a sidebar titled 'Theme Scita' shows a list of 'About Us Snippets' with six variants listed: About Us Snippet 1, About Us Snippet 2, About Us Snippet 3, About Us Snippet 4, About Us Snippet 5, and About Us Snippet 6. A red arrow points from the sidebar to a large, light-purple rectangular area on the page labeled 'DRAG BUILDING BLOCKS HERE'. Below this area is a brown footer bar.

- As you drag and drop a Snippet, you will get a preview of the Snippet.

USER MANUAL: Odoo Theme Scita

- You can edit the content of the Snippet. When you select the snippet, the snippet related options will be enabled under the “Style” tab.

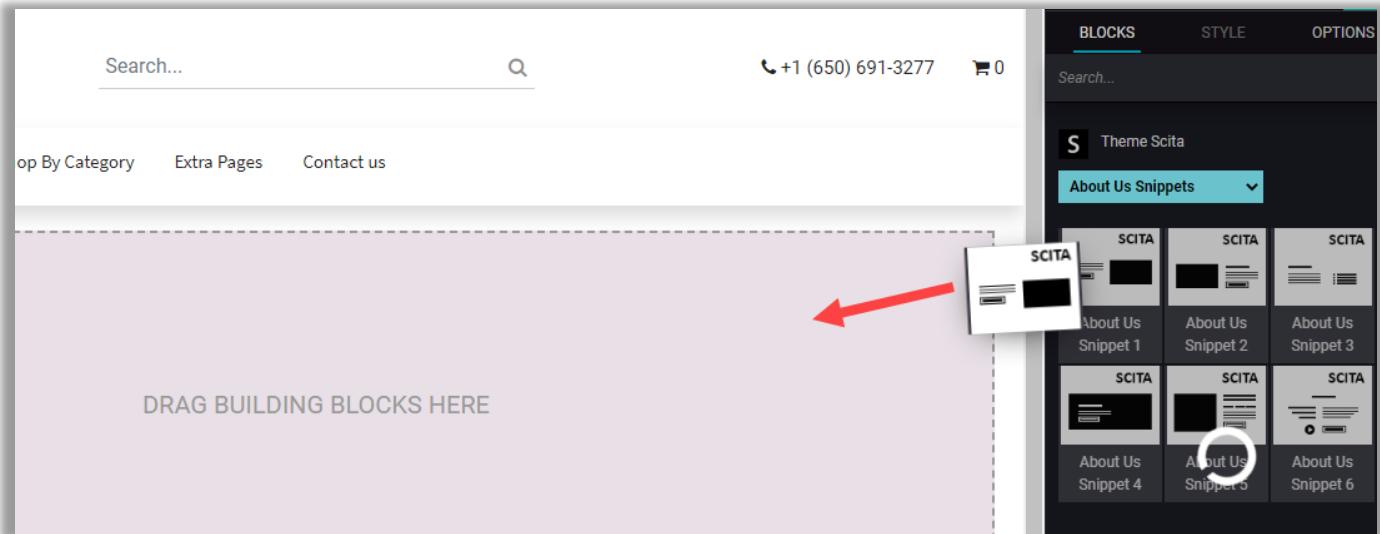

- Once all required snippets are placed and edited, click on **Save** button to save the changes made to the web page.
- You can customize and edit the Snippet as per your requirement or website structure.

Theme Scita: List of Snippets

'About Us' Snippet

- For 'About Us', you will find **6 different options**.

- Drag and drop any of the 6 snippets on the page where you want it.
- By selecting Snippet, you can customize the style elements like: Set No. of columns, Background, its color, etc. and apply the text format from the 'Style' tab.
- You can Move, Duplicate and Delete the snippet. You can also resize the snippet as per the need.

The screenshot shows the Odoo Theme Scita interface with a different snippet. The top navigation includes 'info@yourcompany.com', 'My Account', 'Support', 'Logout', and 'Public Pricelist'. Below the navigation are links for 'Home', 'Shop', 'Blog', 'Industry', 'Shop By Category', 'Extra Pages', and 'Contact us'. The main content area features a photograph of medical professionals in an operating room. To the right, there's a heading 'About Healthcare' with a heart rate icon. Below the heading is some descriptive text. On the far right, a sidebar titled 'About Us Snippet 2' allows customization of the snippet's style. The 'STYLE' tab is active, and a yellow box highlights the 'Columns' setting, which is set to 2. Other style options include 'Background' (with a color picker), 'Content Width', 'Height', and 'Scroll Down Butt...'. A toolbar at the bottom provides various text and image editing tools.

- You can customize every block of the snippet. You can change the image by clicking on the image that you want to change or remove. Along with image, you can also add Text, Document, Pictogram and Video to the snippet.
- You can edit the text caption, color, button's color, button effects by double clicking on them.

About Us 1

The screenshot shows the Odoo theme Scita interface for editing a snippet. The snippet is titled "About Us Snippet 2". The right panel displays various styling options: Columns (set to 2), Background, Content Width, Height (Auto, 50%, 100%), and Scroll Down Butt... (disabled). Below these are standard text and style editing tools.

- When you select the ‘Snippet’, the snippet related options will appear under the “Style” tab. Here you will find the name of the selected Snippet as a header.
- You can ‘duplicate’ the container or block of the snippet by clicking on **Duplicate** (copy) icon and ‘delete’ the Snippet by clicking on **Delete** icon.

About Us 2

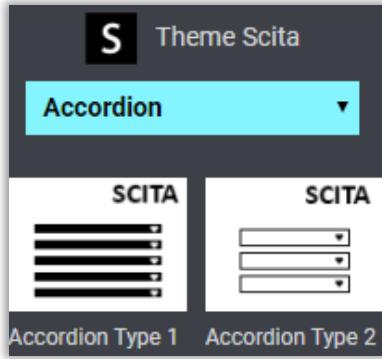

- You will get the different editing options for the selected snippets. Edit as per your requirement.

The screenshot shows the Odoo theme Scita interface for editing a snippet. The snippet is titled "About Us Snippet 5". The right panel displays various styling options: Columns (set to 5), Background, Content Width, Height (Auto, 50%, 100%), and Scroll Down Butt... (disabled). A red box highlights the tabs "What we do", "Client results", and "Social impact" in the snippet content area.

- You can also set the ‘Tab’ in the snippet and edit it. You can set background color of whole Snippet and you can also edit and customized any block of Snippet.

Adding 'Accordion' Snippet

- There are **two** variants for the 'Accordion' snippet.

- Drag and drop any of the 2 snippets on the page.

Accordion Type 1

Frequently Ask Question

Does hudly work with car?

Lorem Ipsum is simply dummy text of the printing and typesetting industry1.

Does hudly work with my phone?

Lorem Ipsum is simply dummy text?

Accordion Type 2

Frequently Ask Question

Does hudly work with car?

2

Does hudly work with my phone?

▼

Lorem Ipsum is simply dummy text?

×

Lorem Ipsum is simply dummy text of the printing and typesetting industry3.

Lorem Ipsum is simply dummy text?

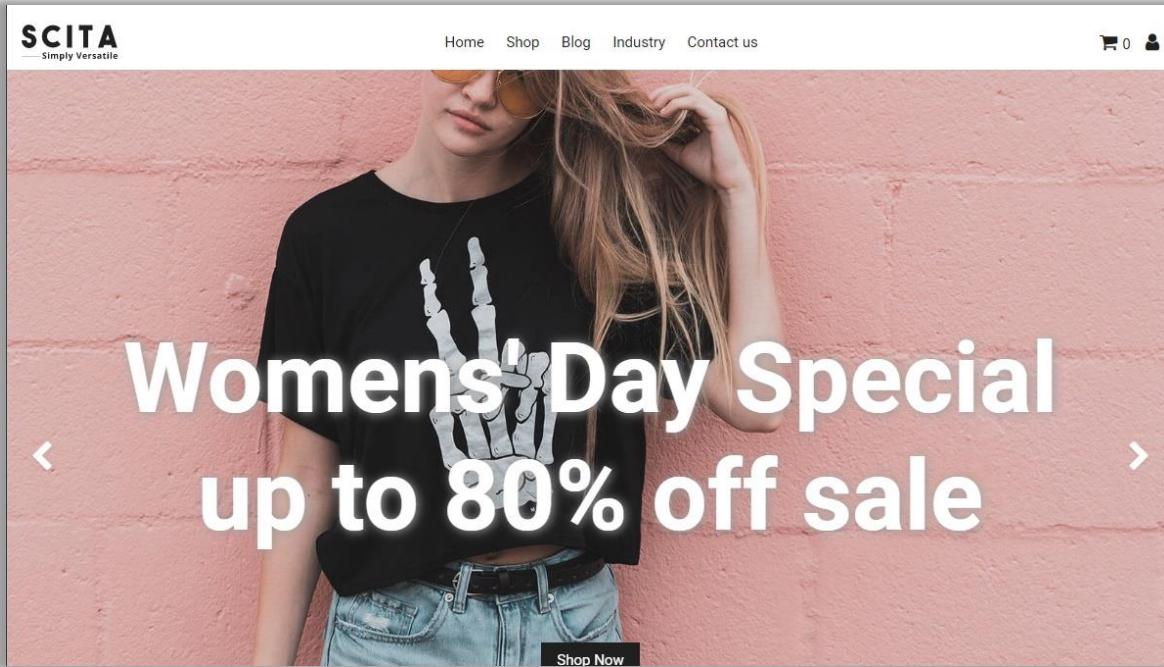

▼

- After selecting the accordion snippet, you can easily customize the elements like text.

Adding ‘Banner Type’ Snippet

- There are **9 different snippets** for ‘Banner Type’ along with video banner, Drag and drop any of the 9 snippets.
- By selecting Snippet, you can customize the style elements: Set No. of columns, Background, its Color, etc. and apply the text format from the ‘Style’ tab.

Banner Type 1

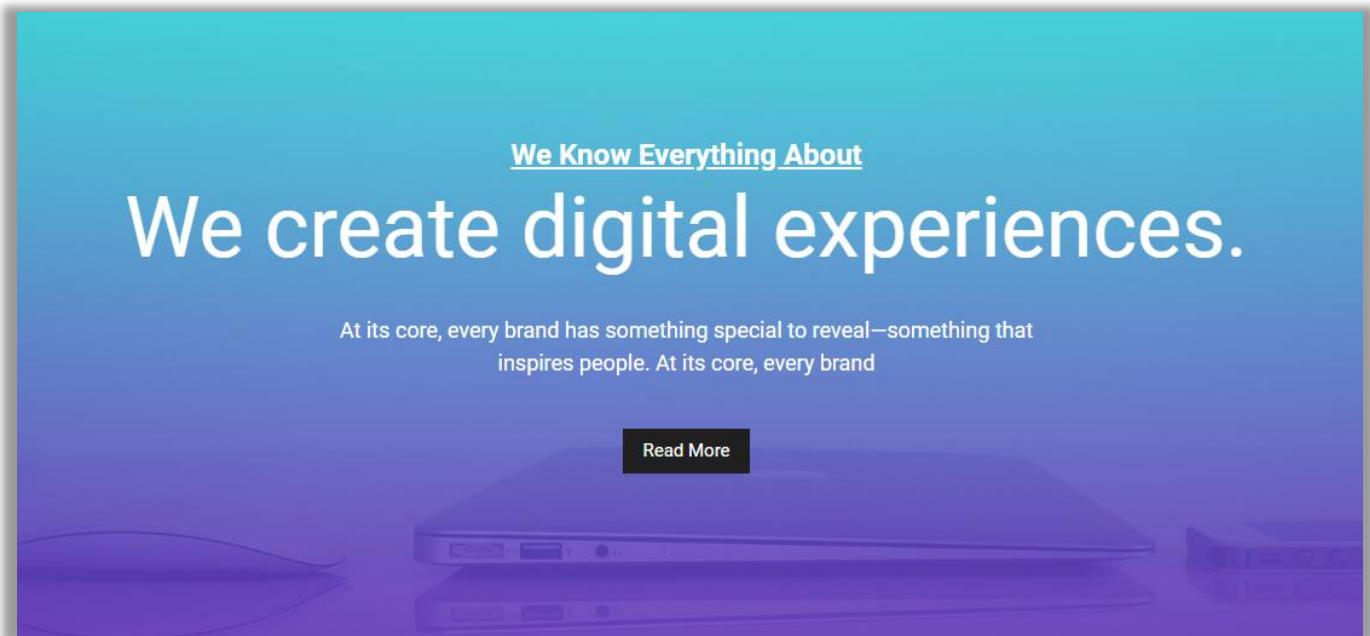

Banner Type 2

A screenshot of a website banner for 'Your Doctor Your Treatment'. The banner features a doctor's hands holding a stethoscope. The text 'Your Doctor' and 'Your Treatment' is overlaid in orange and white. A 'Make an appointment' button is at the bottom left. The right side shows the Odoo interface with the 'Style' tab selected for the 'Banner Slider 8' block. The style panel includes options for background, style, transition, speed, height, and scroll down button.

- You can apply the slide effects, speed and add more slides with the description and images.
- You can also edit the text on the button, its background color and the style of button by double clicking on it.

Banner Type 3

- You can set the background image and button text by double clicking on it.

Video Banner Snippet

- You can also display the **Video Banner** under 'Banner Snippet' in Theme Scita.

The screenshot shows the Odoo Theme Scita interface. On the left, a 'Video Banner Configuration' dialog is open, prompting for a 'Video Banner URL' (example: https://sitedummy.com/video.mp4) and noting that better browser support is achieved with mp4 format. It includes 'Cancel' and 'Apply' buttons. An arrow points from the 'Apply' button to the 'BLOCKS' tab in the banner snippet library on the right. The library displays various banner snippets, including 'Banner Slider' and 'Hero Image' snippets, with one 'Dynamic Video Banner 1' snippet highlighted by a yellow box.

- By drag & drop the **Dynamic Video Banner 1**, a popup will appear named Video Banner Configuration.
- Insert the **Video URL** and **Mp4** format will be preferable for better browser support.
- After inserting Video Banner URL, click on **Apply** button and **Save** the website changes.

Website View

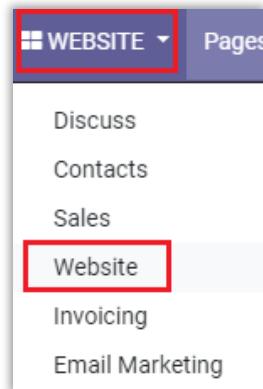

- Banner video will automatically be played when your customer browses your store.

'Blog' Snippet

Back End configuration

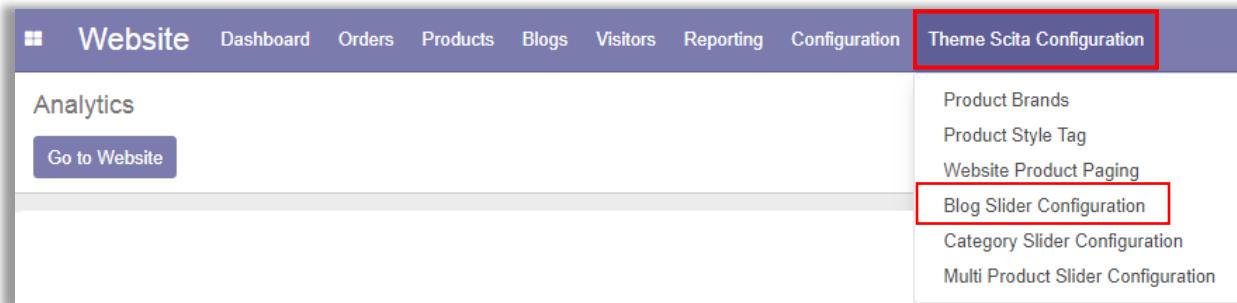

- To use this snippet, first you need to **configure** the same from backend admin section.
- For that, go to **WEBSITE → Website**.
- By clicking on Website, you will find the dashboard with the header menu section.
- To configure the **Blog** snippet, first, you must insert a **Blog** post with its **Category** and **Tags** if required.

- To create a Blog post, click on **Blogs** from the header Menu and create a Blog with required details.

Note: Once the blog is created you should 'publish' it on website.

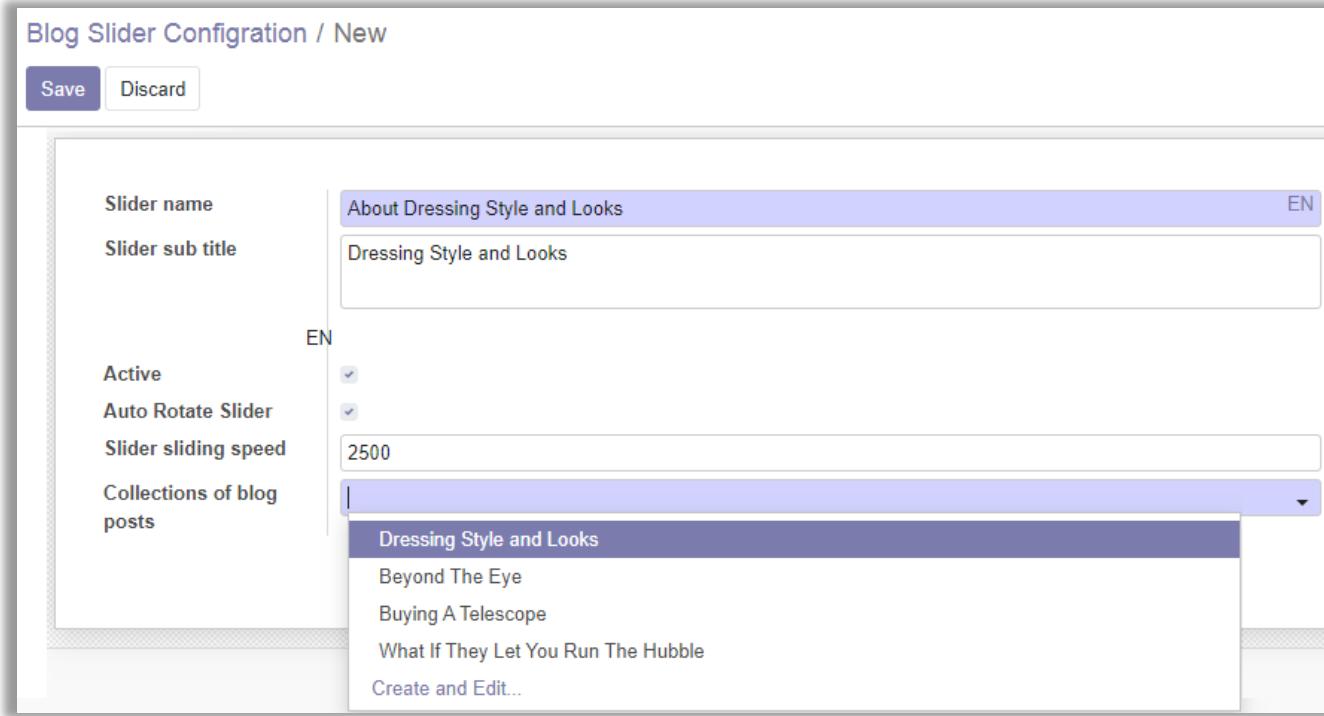

- Now, go to **Theme Scita Configuration → Blog Slider Configuration** to configure the **Blog snippet**.

- From here, you can insert a 'Blog Slider' which you will need to select during Blog snippet drag & drop.

USER MANUAL: Odoo Theme Scita

- Now, create a new **Blog Slider** by inserting the required details and selecting the **Blog Post** from the 'Collections of Blog posts dropdown list.

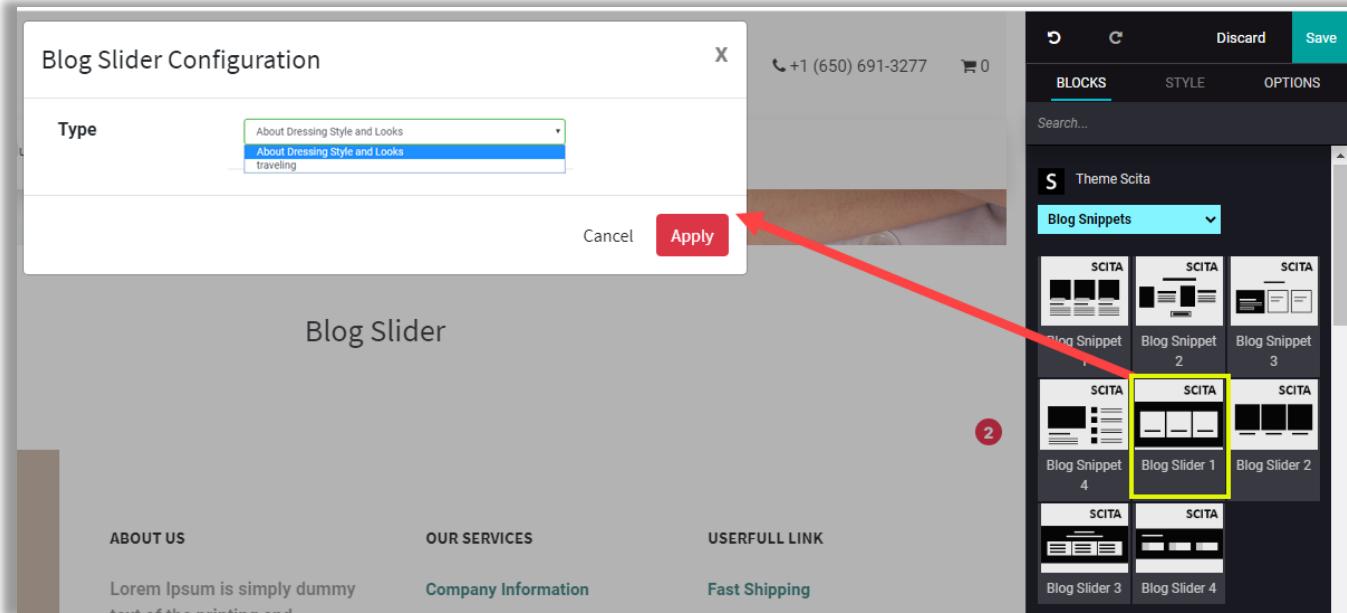

Note: You will get only those Blog posts from the drop-down list which are published and live.

- Now, you can use this snippet by switching to the website.
- Go to **Website** -> Click on the **Edit** button available on the top right corner. By clicking on that, a snippet panel shows on left side of window.

USER MANUAL: Odoo Theme Scita

Website view (Front End view)

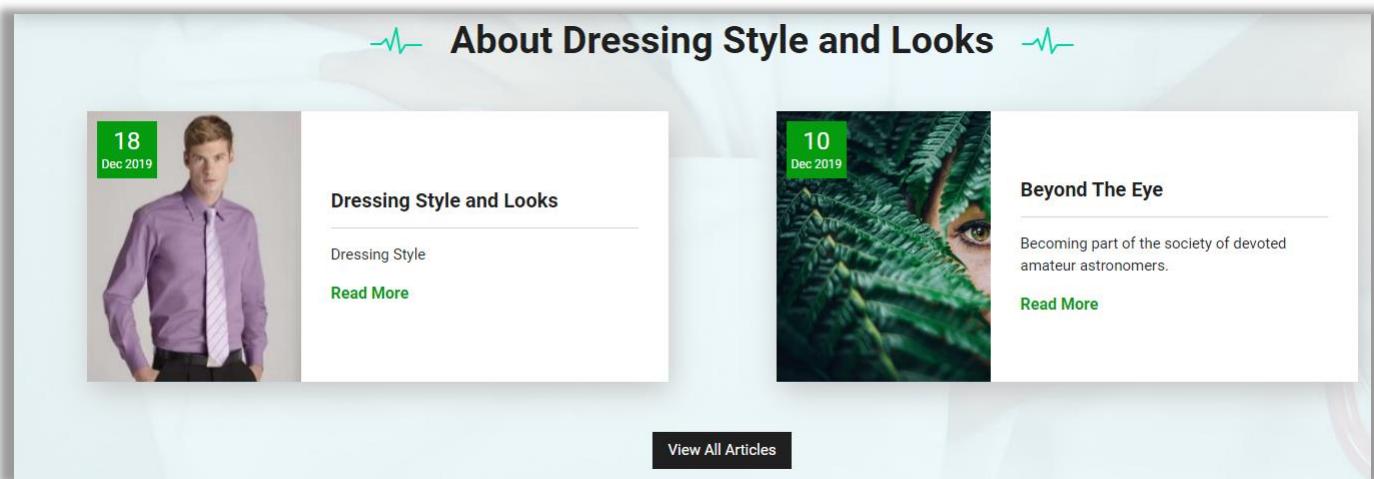

- Now, go to the Theme SCITA section and select the **Blog** snippet from the drop-down list.
- There are **8 different snippets** for ‘Blog slider’. Drag and drop any of the 8 snippets.

- As you drag and drop this snippet, a pop up will be shown named “Blog Slider Configuration” to select a ‘Blog type’ which you want to display on the website.
- After selecting a Blog Type, you must **Save** the changes.

'Category Slider' Snippet

Back End configuration

- There are 4 different types in Category Slider: **2 Banners** and **2 Sliders**.
- To use the **Sliders**, first you must configure the 'Category Sliders' from the backend configuration.
- Before Category Slider Configuration, you must add the Categories from **WEBSITE → Website → Configuration → eCommerce Categories**.
- Now, for the Category Slider Configuration, go to **WEBSITE → Website → Theme Scita Configuration → Category Slider Configuration**.

- After clicking on 'Category Slider Configuration', Category Slider page will be redirected.
- From here, you can edit available categories and create a new Category Slider.

The screenshot shows the 'Category Slider / New' configuration form. It includes fields for 'Slider name' (set to 'Trending'), 'Active' (checkbox checked), and 'Collections of category' (dropdown menu showing 'Formal T-Shirt', 'Formal T-Shirt / Sports T-Shirts', and 'Footwear-Sports').

- Insert desired 'Slider Name' and select required Categories from Collection of Category drop-down option.
- The categories which are selected in the 'Collection of category' option will get displayed on "Category Slider" Snippet (Website view).
- Now you can use 'Category Slider' snippet by switching to the website.

Website view (Front End view)

- Now, go to the Theme SCITA section and select the Category slider snippet from the drop-down list.
- There are **4 different** types for 'Category' snippet. Drag and drop any of the 4 snippets.

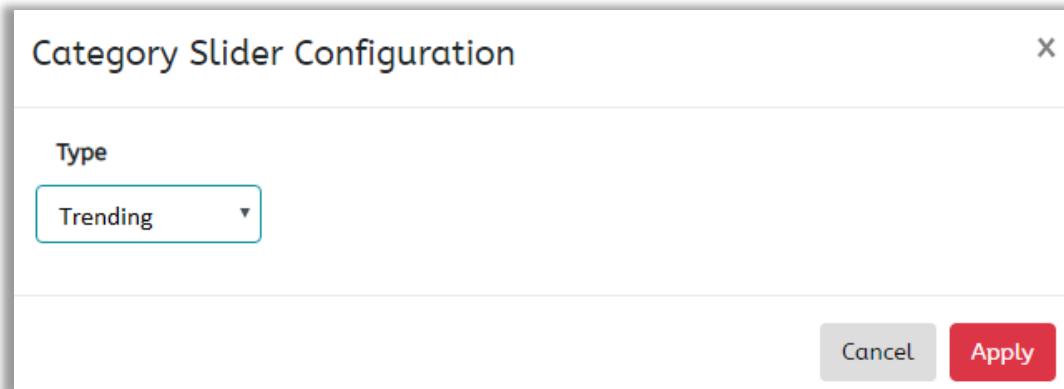

Category Banner

- To display the Category Banner on website, simply drag & drop it.

Category Slider

- Now, if you drag & drop the 'Category Slider', it will show a pop up from where you can select the 'Category Slider' Type which you want to display on the website.

USER MANUAL: Odoo Theme Scita

- After clicking on the **Apply** button and saving the website changes, you will see the **Trending** slider as you have created on the website.

'Case Study' Snippet

- There are **3 different variants** for 'Case Study' snippet. Drag and drop any of the 3 snippets.

Case Study 1

The screenshot shows a 'Case Studies' section with three identical columns. Each column features a circular profile picture of a man with glasses and a stethoscope, labeled 'DEN LEONARDI'. Below the profile is a short text snippet: 'Nullam bibendum odio a sem bibendum, ut vestibulum ipsum porttitor. Sed finibus nec orci et cursus. Vestibulum facilisis rhoncus'. At the bottom of each column is a green 'Read More' button. A central 'View All' button is located at the bottom of the entire section.

- You can edit the details of any content and column from the 'Style' tab.

Case Study 2

The screenshot shows a 'Sentiment Analysis' section with two columns. Each column features a blue cylinder icon representing a database or storage, followed by a green 'Try it for free' button. Below the icon is the heading 'Sentiment Analysis' and the text 'Global Business management Tracking App'. The second column has the same structure with the heading 'Product Sentiment' and the same descriptive text.

- You can edit the icons, buttons, and the text from the block of any content of the Snippet from the 'Style' tab.

'Contact Us' Snippet

- There are **6 different types** for 'Contact Us' snippet. Drag and drop any of the 6 types.

Contact Us 1

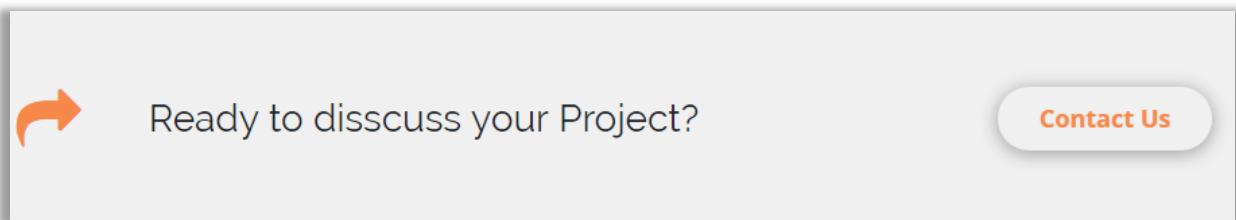

The screenshot shows an 'Office Locations' section with four columns. The columns are labeled 'Mumbai', 'Amsterdam', 'London', and 'San Francisco'. Each column contains address, email, and phone number information for that location. The text is in a standard black font, and the overall layout is clean and organized.

Mumbai	Amsterdam	London	San Francisco

Contact Us 3

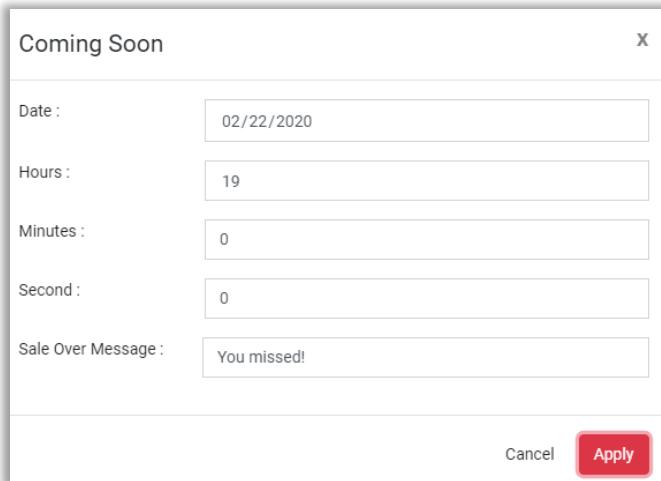

Adding 'Deal of The Day' Snippet

- There are **5 different types** for 'Deal of The Day' snippet. Drag and drop any of the 5 types.
- There is a Timer snippet in 'Deal of The Day'. Using this you can display the timer on website.

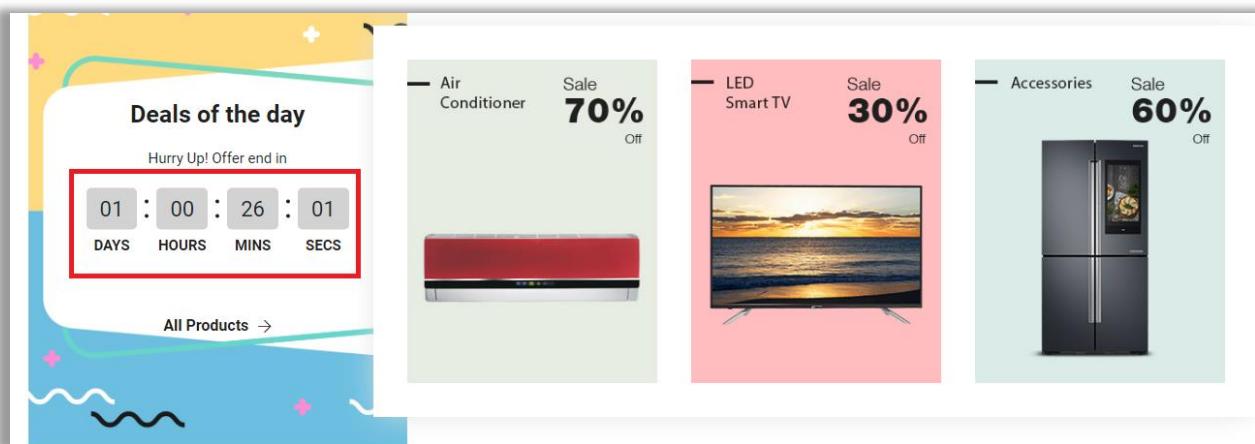

Note: If you have set the timer, the Deal of the day Snippet will appear with reverse calculation. You can also set the message to display after the deal of the day timing is completed.

Setting up Timer

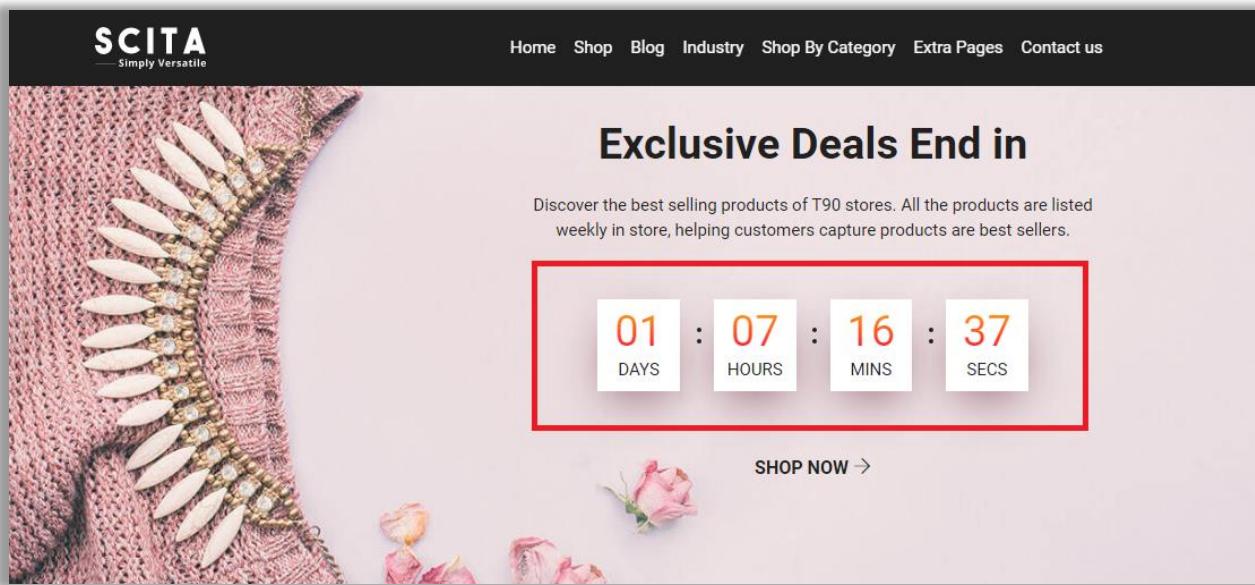

- Drag & drop the **Timer** on the Deal of the Day snippet, a popup will appear to insert the details of Timer. You should insert the details like **Date & Time** as per your offer duration and a **message** after completion of the deal.

Deal of The Day 1

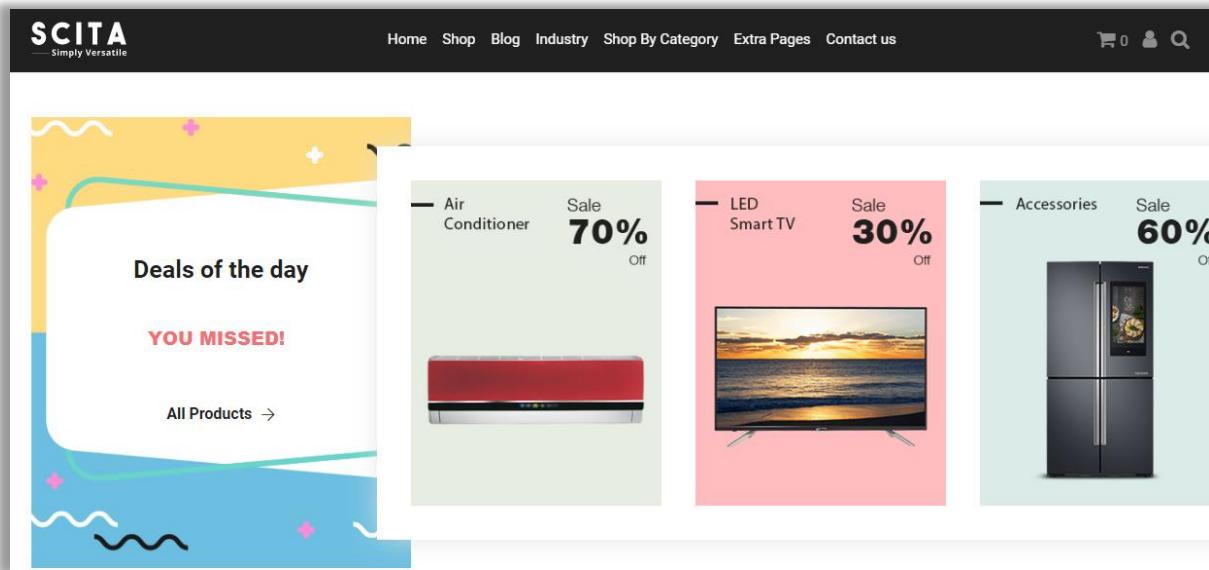

- After saving the details, the webpage will be shown with the timer of the offer.

Deal of The Day 2

Deal of The Day 3

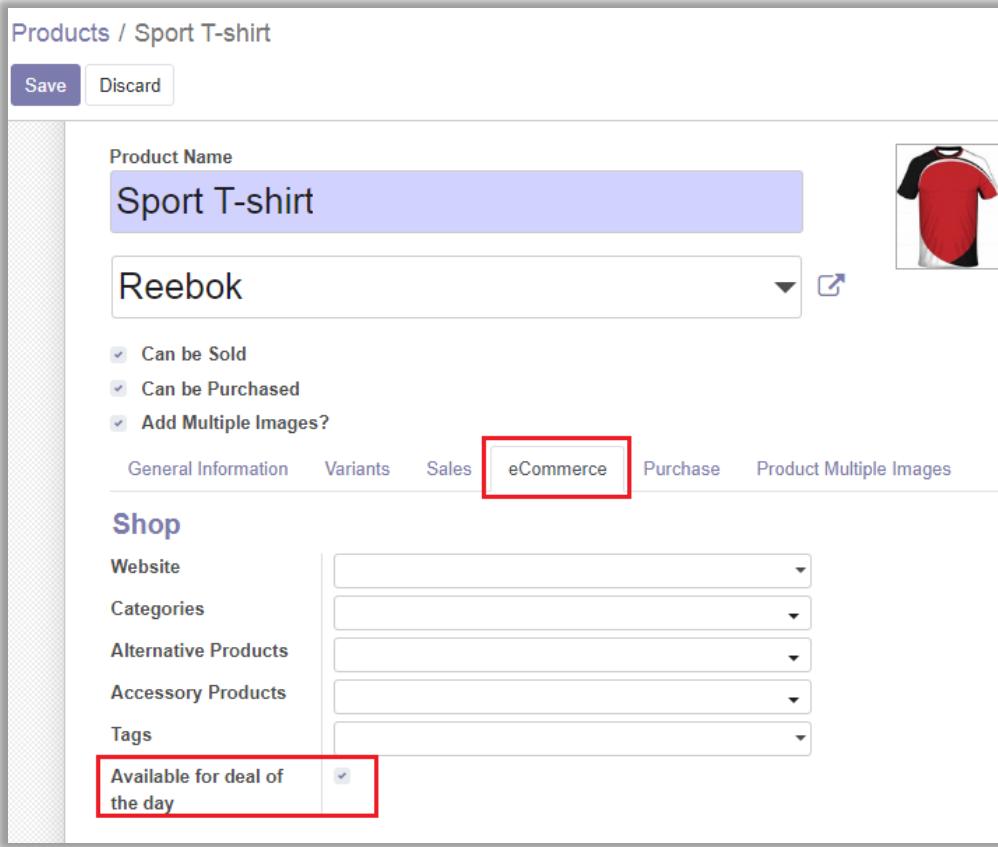

- After completion of the offer, the customer will get the message as you inserted in **Sale Over Message**.

- By clicking on **All Products**, the customer can check all the products which are under 'Deals of the day' offer.

USER MANUAL: Odoo Theme Scita

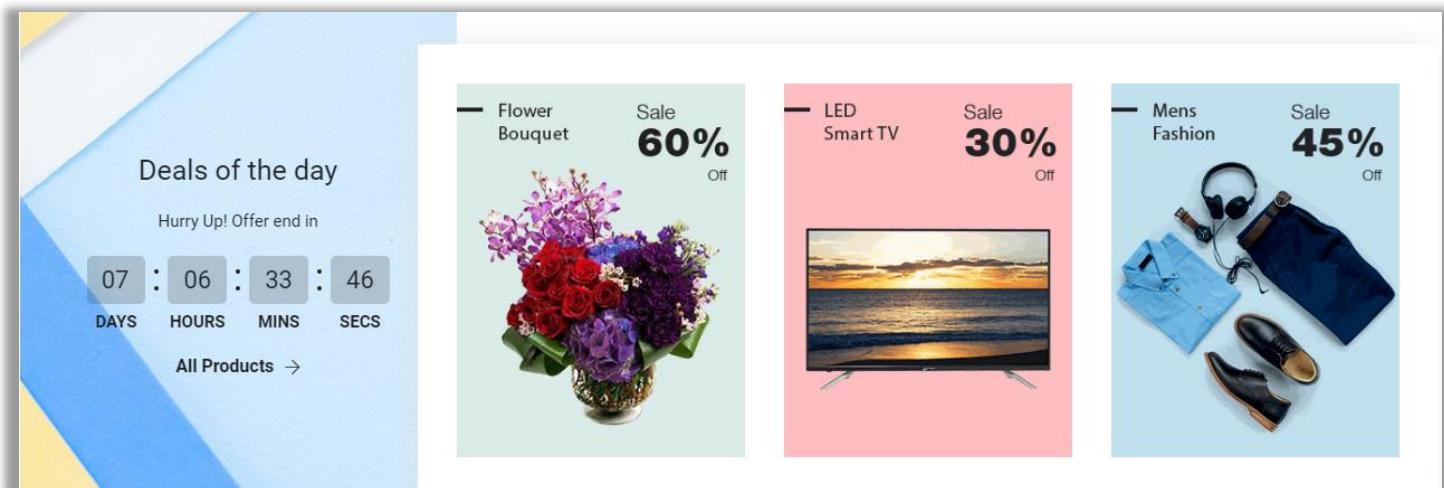

- To set the product under 'Deal of the Day' offer, go to the **details page of Product → eCommerce**
→ Enable the **Available for deal of the day** option and save the changes.

- To set the product under 'Deal of the Day' offer, go to the **details page of Product → eCommerce**
→ Enable the **Available for deal of the day** option and save the changes.

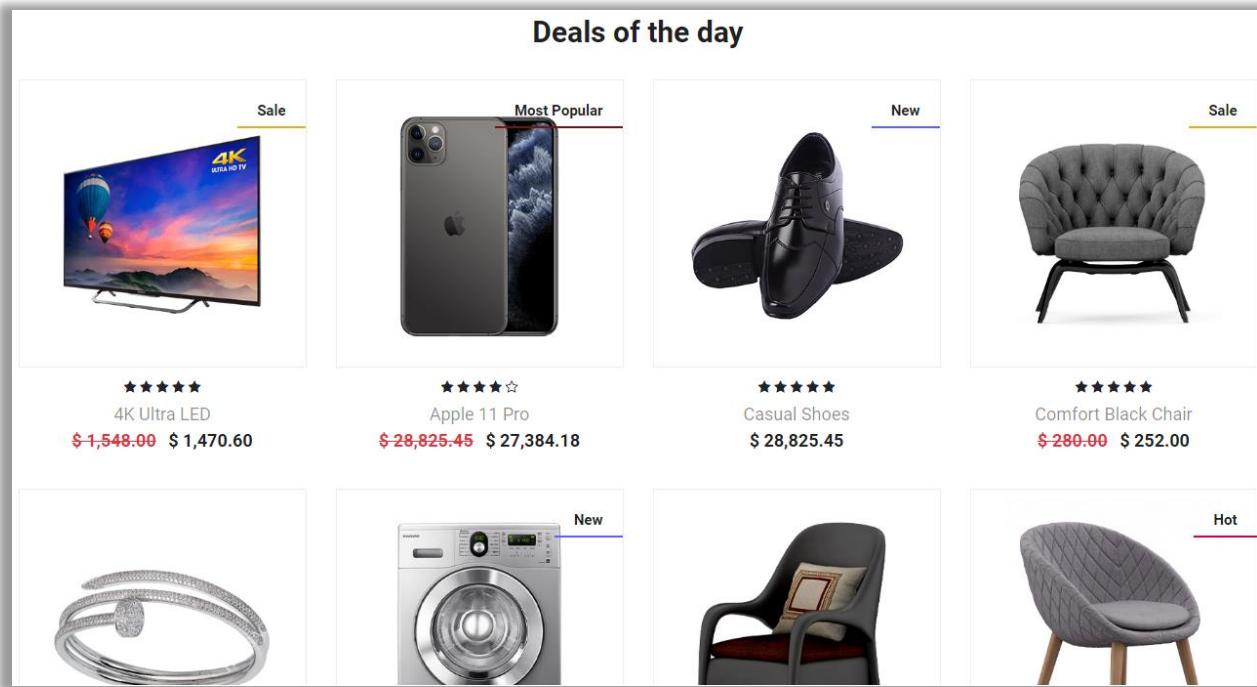

Website View

- You will see Deal of the Day with Timer as per the Timer Configuration.

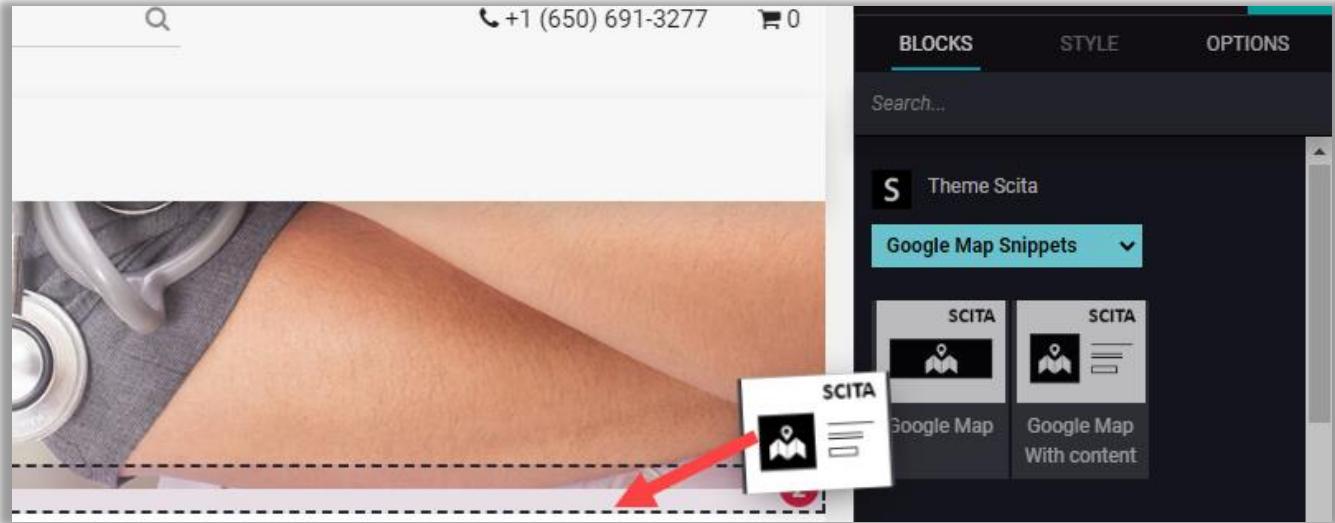

USER MANUAL: Odoo Theme Scita

- Now by clicking on **All Products →**, you will get the list of the products which are selected for the **deal of the day** offer.

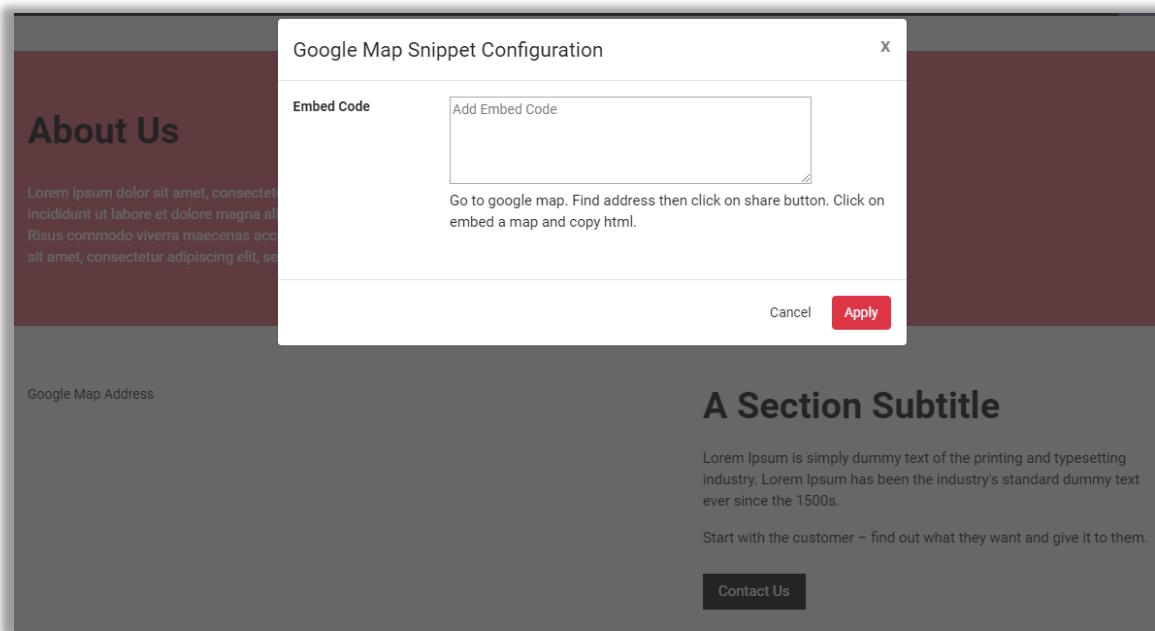

Adding ‘Google Map’ Snippet

- There are two variants for ‘Google Map’ snippet. Drag & drop any of the two variants.

- As you drag and drop this snippet, a pop up will be shown named “Google Map Snippet Configuration” to insert the Embed Code of location.

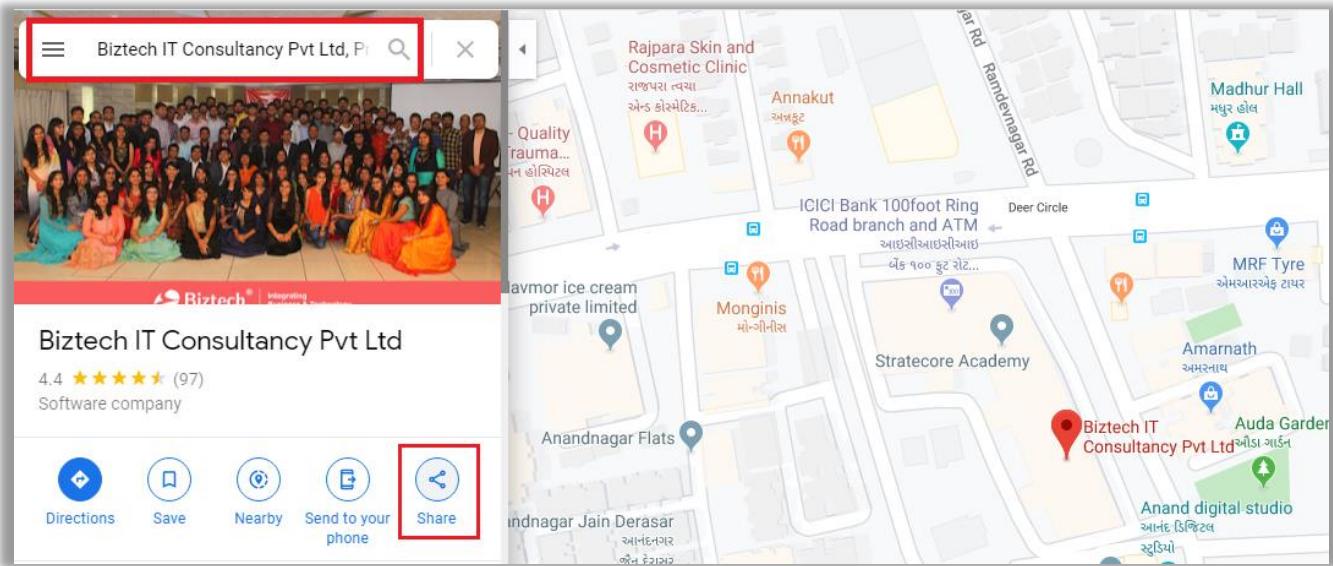

USER MANUAL: Odoo Theme Scita

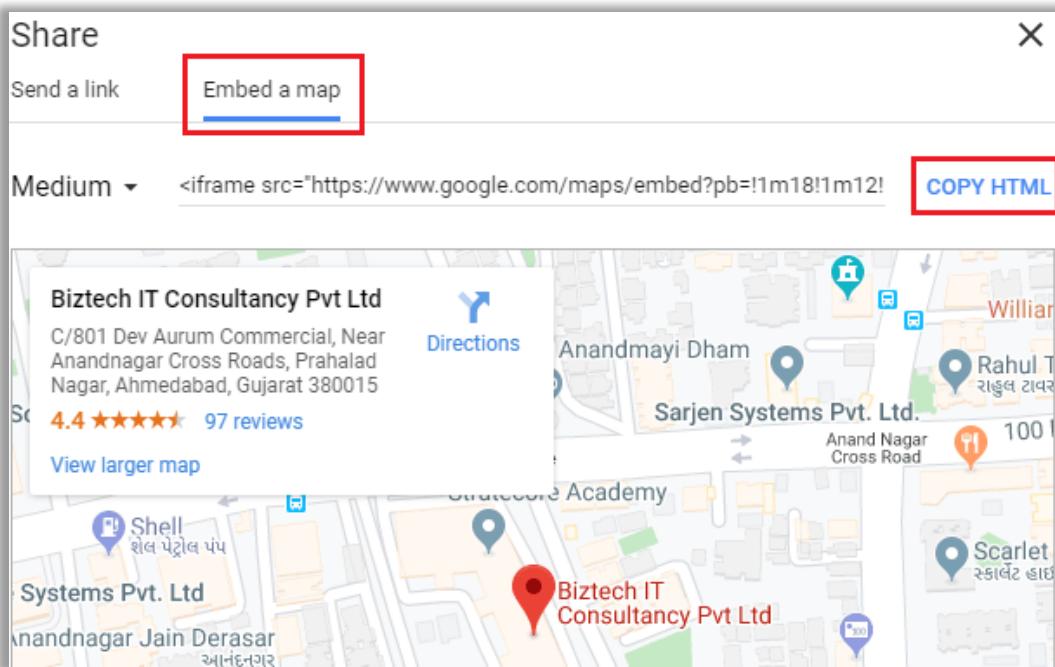

You need to follow the below steps to get the Embed Code of location:

Step-1: Go to **Google Map** (<https://www.google.com/maps/>).

Step-2: Search location from the search bar.

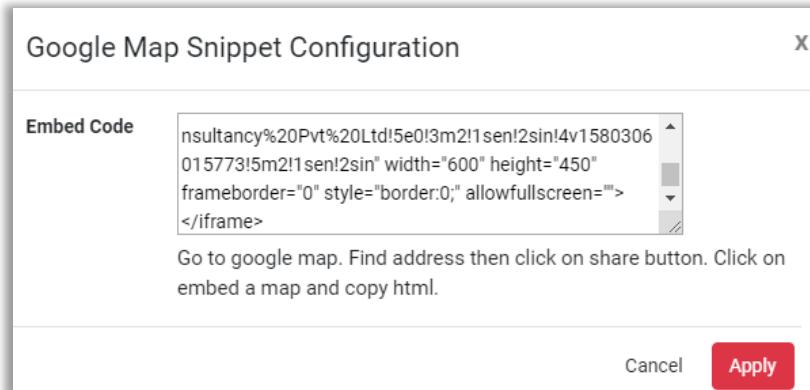

Step-3: Click on Share icon. By clicking on it, a Share pop-up will be appeared.

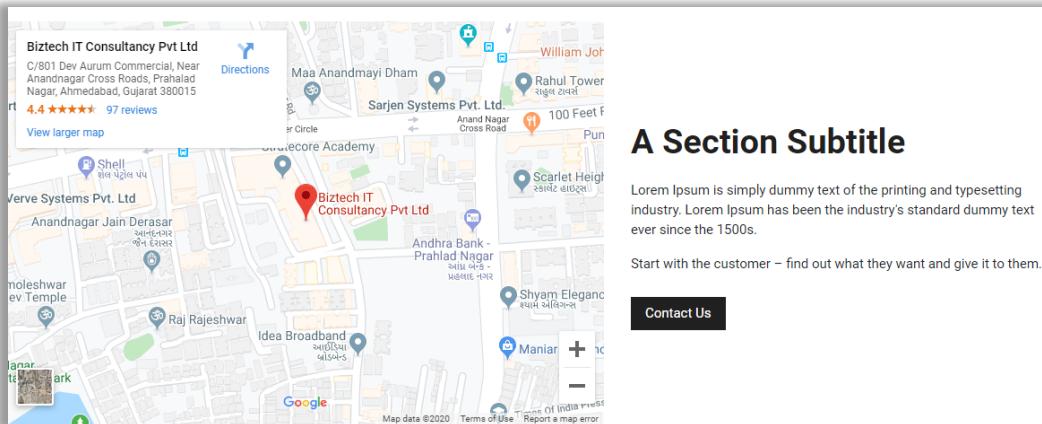

Step-4: Click on Embed a Map option and then COPY HTML.

USER MANUAL: Odoo Theme Scita

Step-5: Now, back to Theme Scita configuration page. Paste the Embed Code and click **Apply** button to display Google Map snippet with selected location.

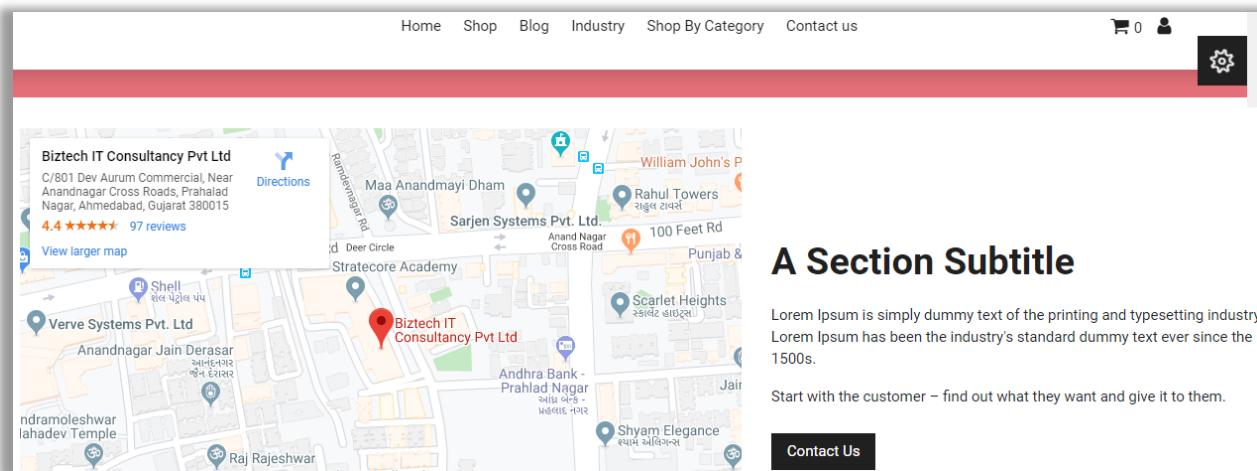

- As you clicked on the **Apply** button, the google map with selected locations can be seen. Save the snippet configuration.

Website view (Front End view)

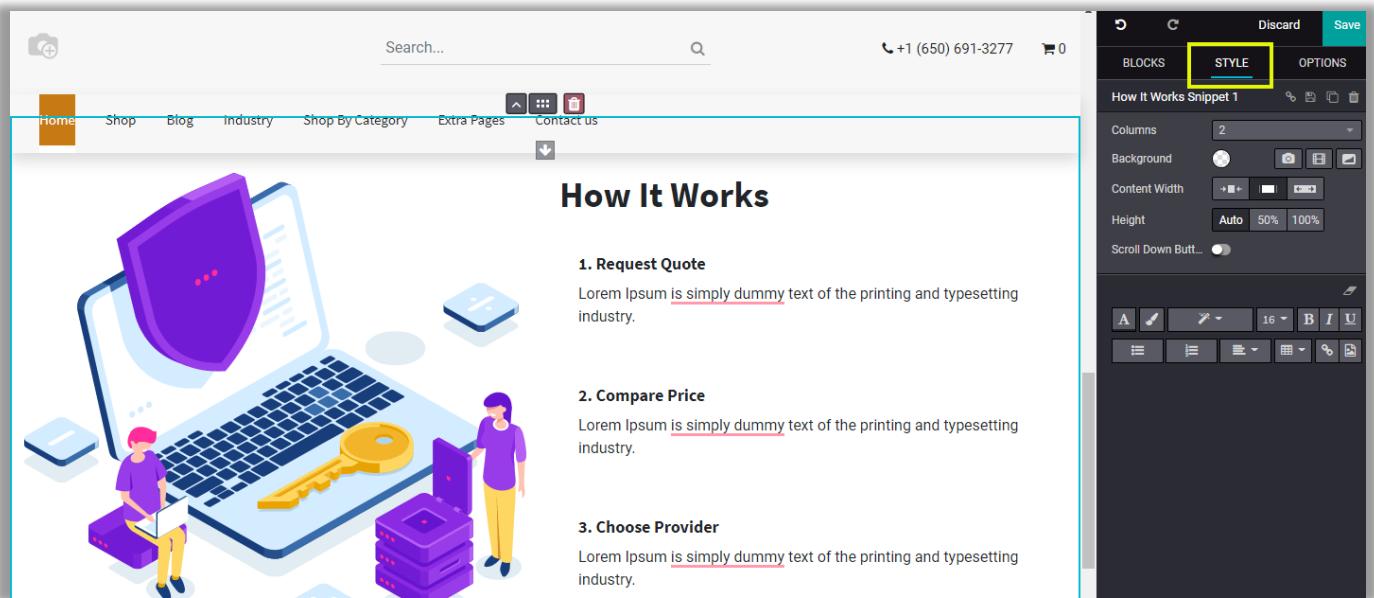

- The Google map will be displayed on the website as per the Embed code.

Adding ‘How It Works’ Snippet

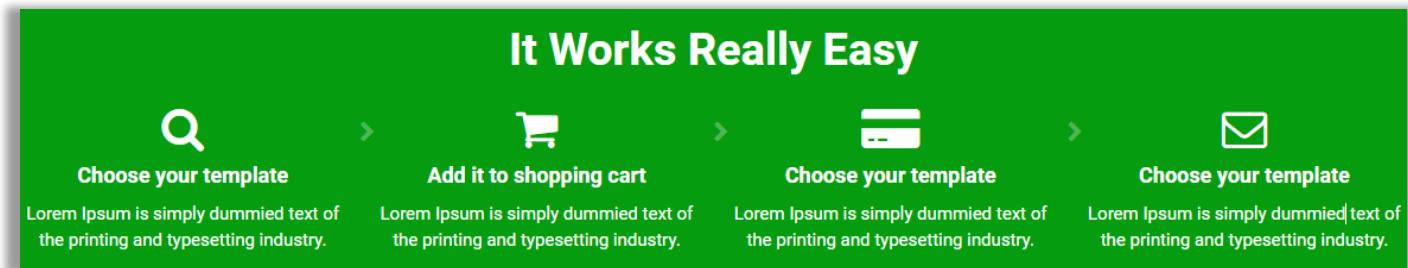

- There are 7 different variants for ‘How It Works’ snippet. Drag & drop any of the 7 variants.

How It Works 1

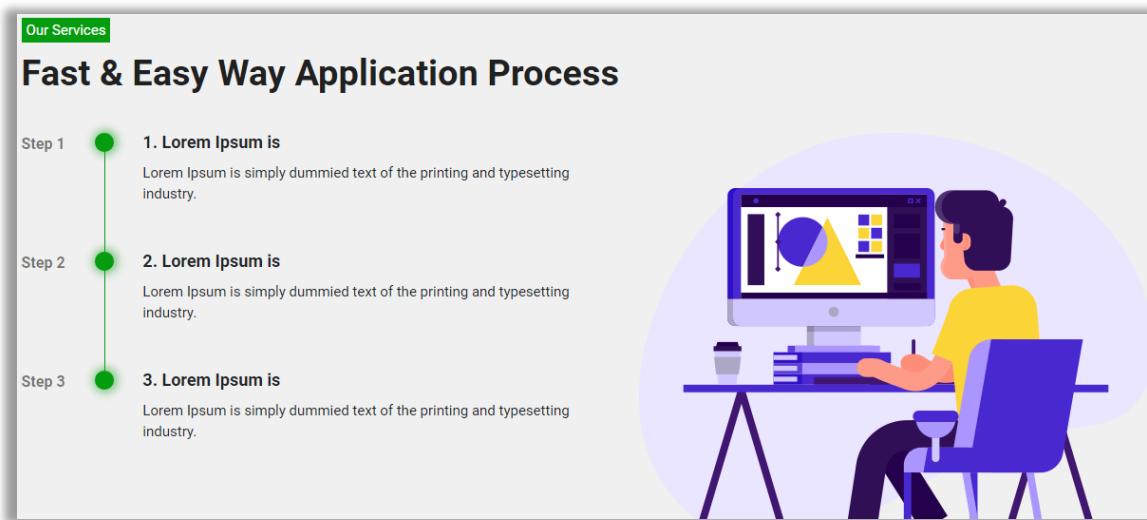

- Under the ‘Style’ tab during website editing mode, you can customize No. of Columns, Background, Color of the snippet, etc. You can Move, Duplicate and Delete the snippet from here. You can also resize the snippet as per the need.
- You can customize every block of the snippet and change or remove any image. Along with image, you can also add Text, Document, Pictogram and Video to the snippet.

How It Works 2

How It Works 3

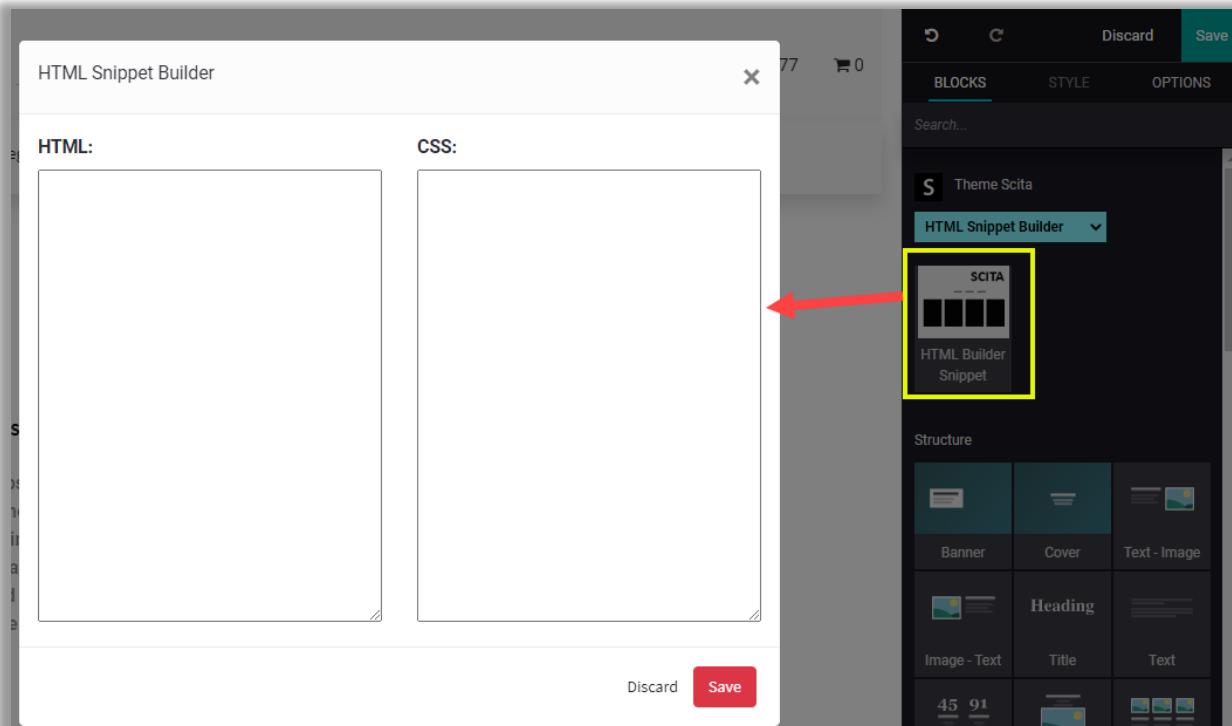

Adding 'HTML' Snippet

- You can build your own snippet in Theme Scita from any open source frontend development framework like 'BootSnipp'.
- Select the **HTML Snippet Builder** from the Snippet dropdown and follow the below steps to build own snippet design:

Step-1: Drag and drop the HTML snippet

- As you drag and drop the snippet, the "HTML Snippet Builder" window will appear.

- You need to insert the HTML & CSS code by copying from the frontend development framework. (Bootsnipp)

Step-2: Copy the HTML & CSS Code

- Copy the required HTML & CSS code from the website where you have selected the snippet.

Step-4: After saving the changes, the snippet can be seen as per HTML Builder Snippet.

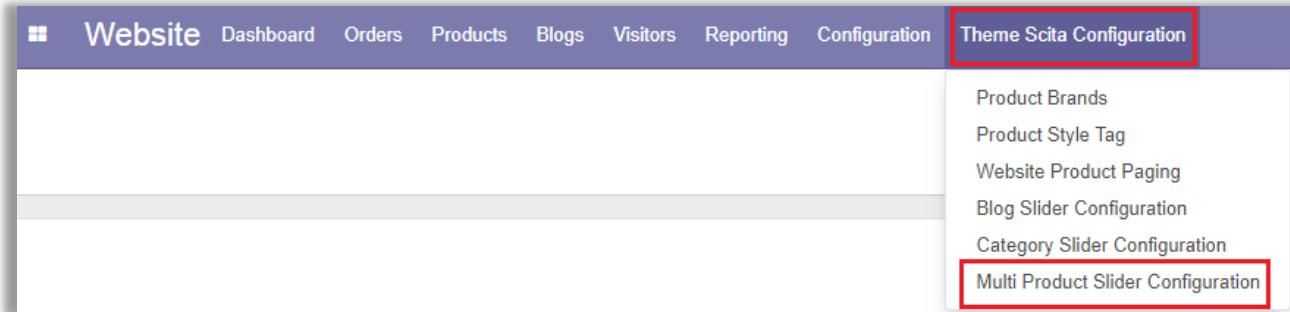

- In this way, you can add any required snippet for your website using HTML Builder Snippet.
- You can also **modify** the HTML & CSS code by clicking on **Style → 'Modify'**.

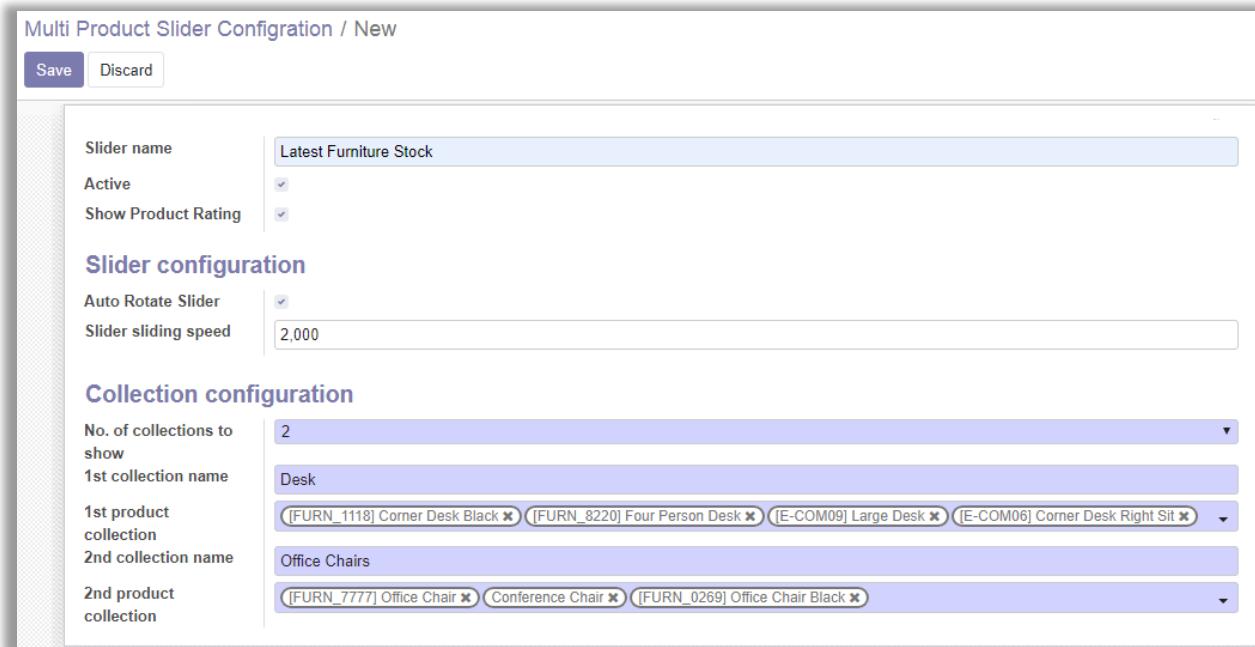

'Multi Product Slider' Snippet

Back End configuration

- To use this snippet, first you need to configure the 'Multi Product Slider' configuration in backend.
- For that, go to **Sales → Slider Configuration → Multi Product Slider**.

- You need to insert 'No. of Product Collection' to display on website. You need to select multiple products for the collection. You can also select Auto Rotate Slider option with slider's time duration.

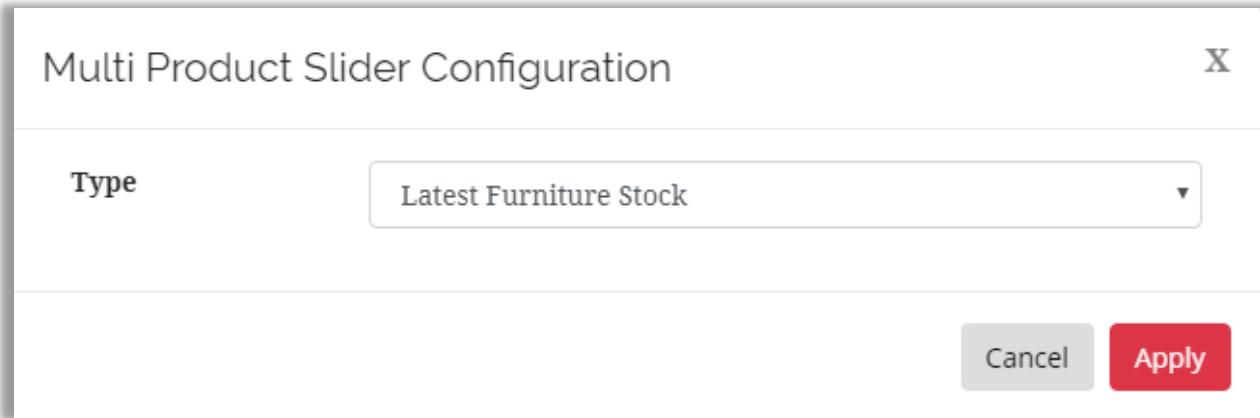

The screenshot shows the 'Multi Product Slider Configuration / New' form. At the top, there are 'Save' and 'Discard' buttons. The form is divided into sections: 'Slider configuration' and 'Collection configuration'. In the 'Slider configuration' section, 'Slider name' is set to 'Latest Furniture Stock', 'Active' is checked, and 'Show Product Rating' is checked. Under 'Slider configuration', 'Auto Rotate Slider' is checked and 'Slider sliding speed' is set to 2,000. In the 'Collection configuration' section, 'No. of collections to show' is set to 2. The first collection is named 'Desk' and contains products: [FURN_1118] Corner Desk Black, [FURN_8220] Four Person Desk, [E-COM09] Large Desk, and [E-COM06] Corner Desk Right Sit. The second collection is named 'Office Chairs' and contains products: [FURN_7777] Office Chair, Conference Chair, and [FURN_0269] Office Chair Black.

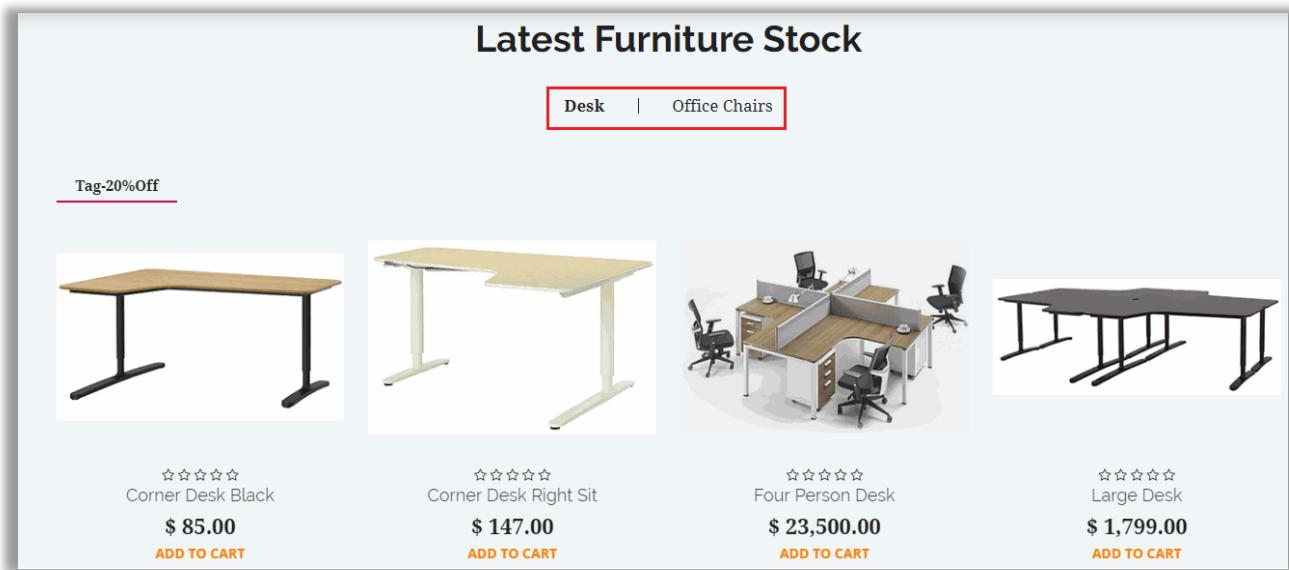

- After saving the details, use 'Multi Product Slider' snippet by switching to the website.

Website view (Front End view)

- Now, go to the Theme SCITA section and select the Multi Product Slider snippet from the drop-down list.
- There are **2 different variants** for "Multi Product Slider" snippet. Drag and drop any of the 2 snippets.

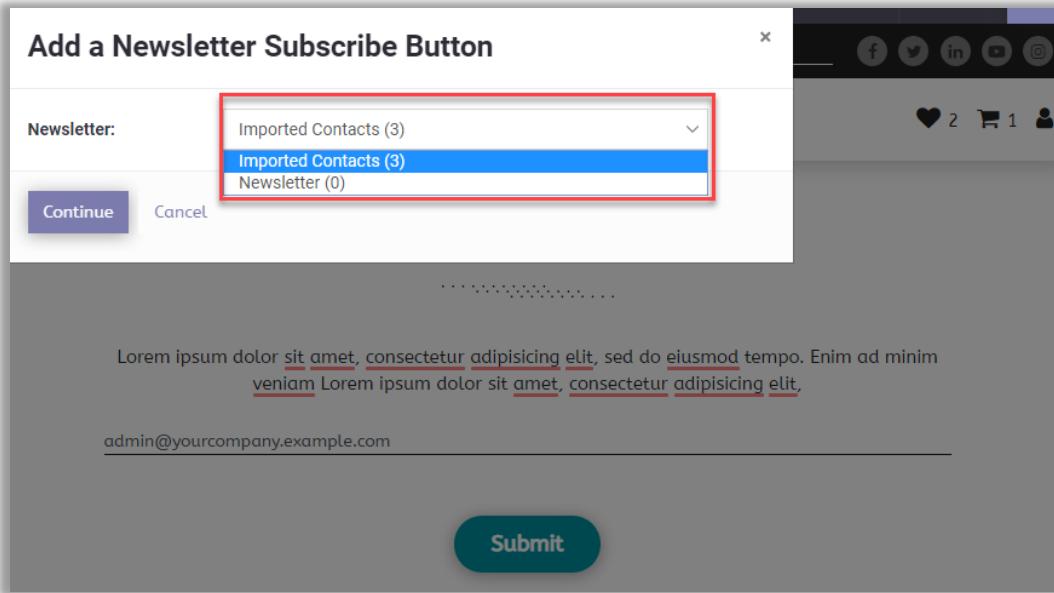

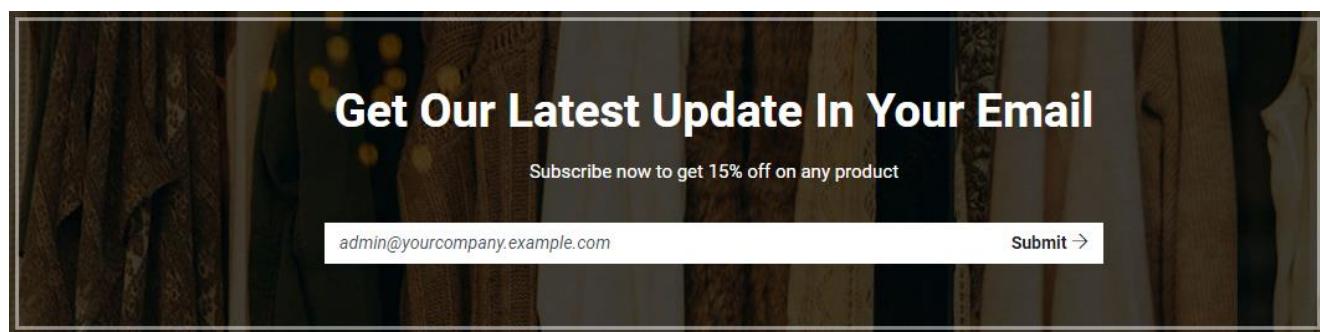

- As you drag and drop snippet, a pop up will appear to select a **type** of 'Multi Product Category' which you want to display on the website. After selecting it, click on 'Apply' button and **Save** the website.

- You can see the Multi Product Slider with two product collections as 'Desk' & 'Office Chairs' which configured in Back End.

'Newsletter' Snippet

- There are **5 different variants** for 'Newsletter' snippet. Drag and drop any of the 4 snippets.
- As you drag and drop variant, a pop up will be shown named "Add a Newsletter Subscribe Button" to select Newsletter which you want to display on the website.
- After selecting a Newsletter, you must click Save to save the changes.

Newsletter 1**Newsletter 2****Newsletter 3**

'Our Team Variant' Snippet

Back End configuration

- To use this snippet, first you need to configure in backend admin section.
- For that, go to **Employee → Employees** and open any employee details by clicking on 'Edit' button.
- In 'employee details' page, enable the **Enable to Make the employee visible in snippet** feature. After enabling, add all the required details of their social media accounts.

Social Media Configuration

Back End Configuration

- Social media icons are visible on **header & footer** of Website which is configurable from Backend.
- To configure the Social Media links, go to **WEBSITE Menu → Settings → Website**.
- Navigate to 'Social media' section. Check the checkbox to add links to social media on the website and update these social media links as per your social media accounts.

Front End View

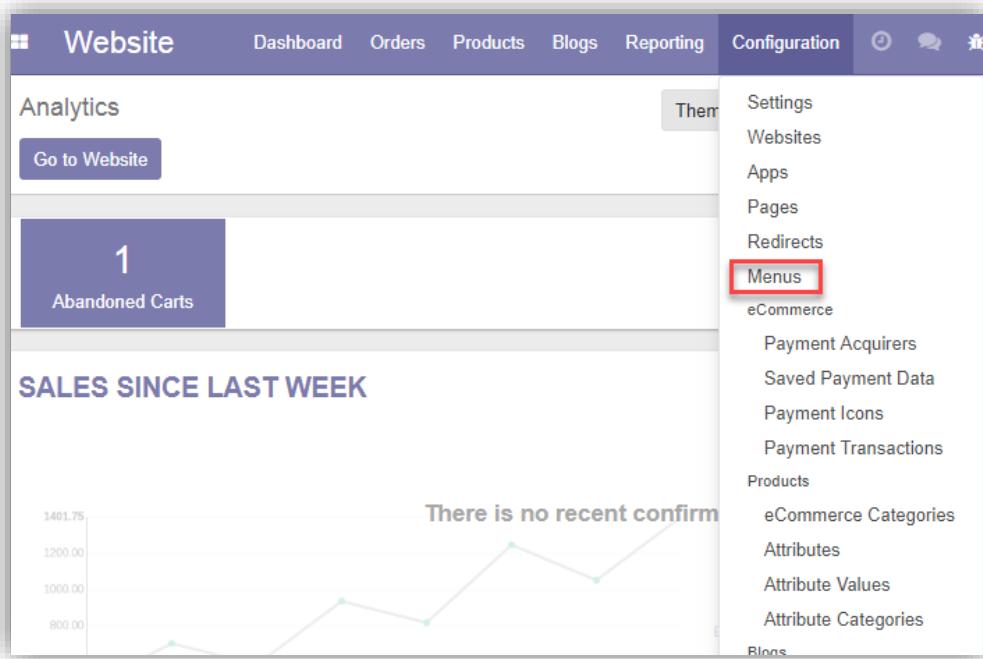

- The Social media icons can be seen on Header and Footer.

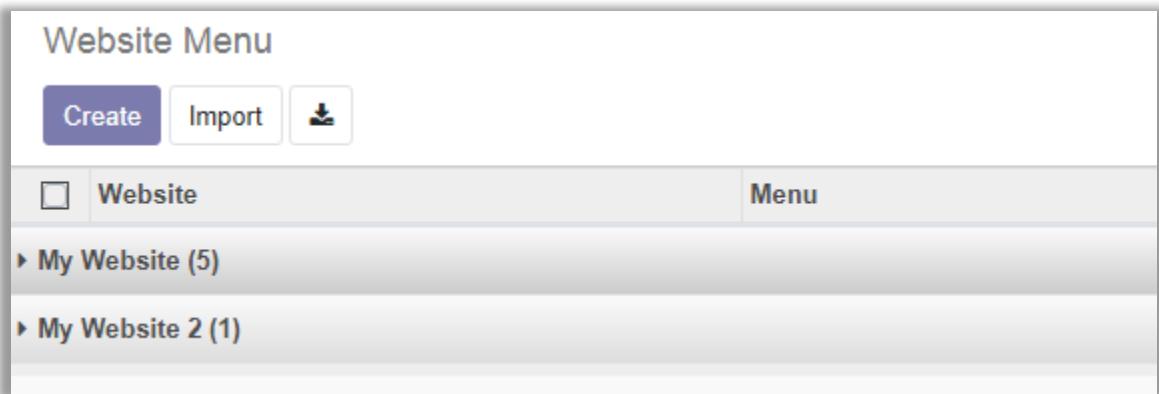

Configuring ‘Mega Menu’

Backend Configuration

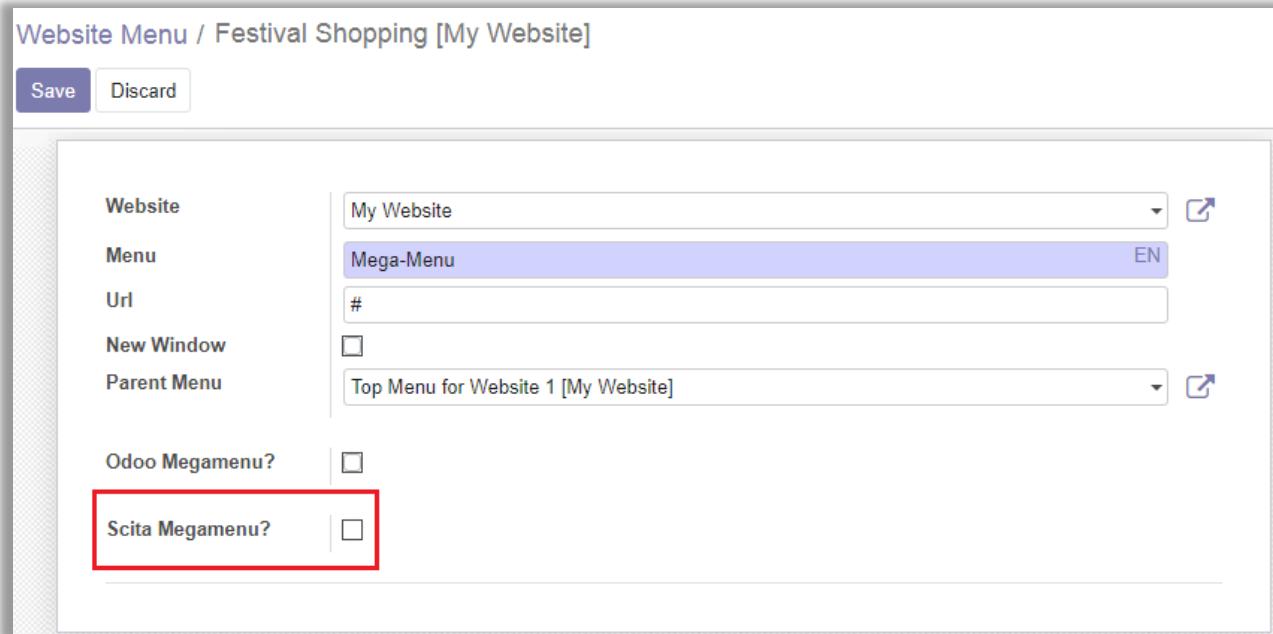

- Users can customize their mega menu as per their requirement. For that, first user needs to enable the developer mode from WEBSITE Menu → Settings → General Settings
- Navigate to ‘Developer Tools’ section. Click on the Activate developer mode.
- After activating it, the Menu option will be displayed.
- Now, go to WEBSITE Menu → Website → Configuration → Menus.

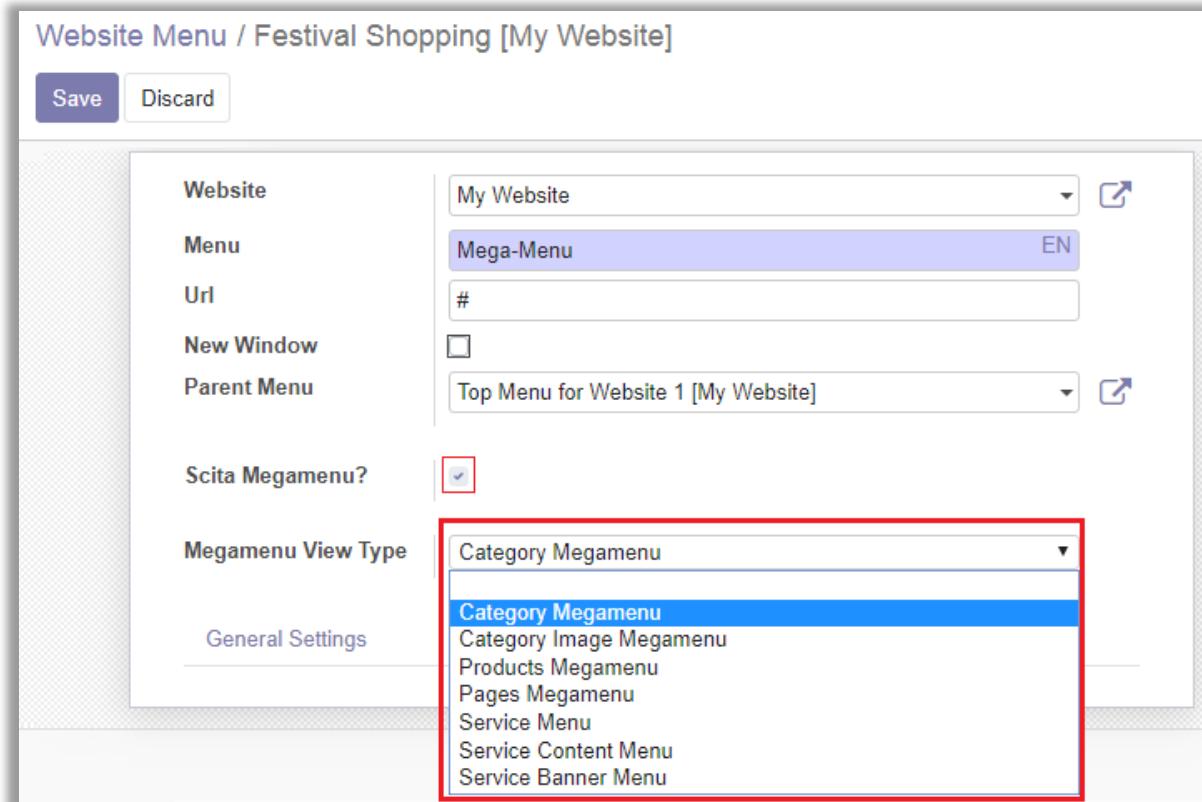

- By clicking on it, you will get the “Menu” list. If you want to make Mega Menu from the list, you can do that by editing it or create a new Menu.

USER MANUAL: Odoo Theme Scita

- Check "Scita Megamenu" checkbox to make a Mega Menu on website.
- As per your website structure & requirement, select a Menu from the 'Megamenu View Type' drop down option.

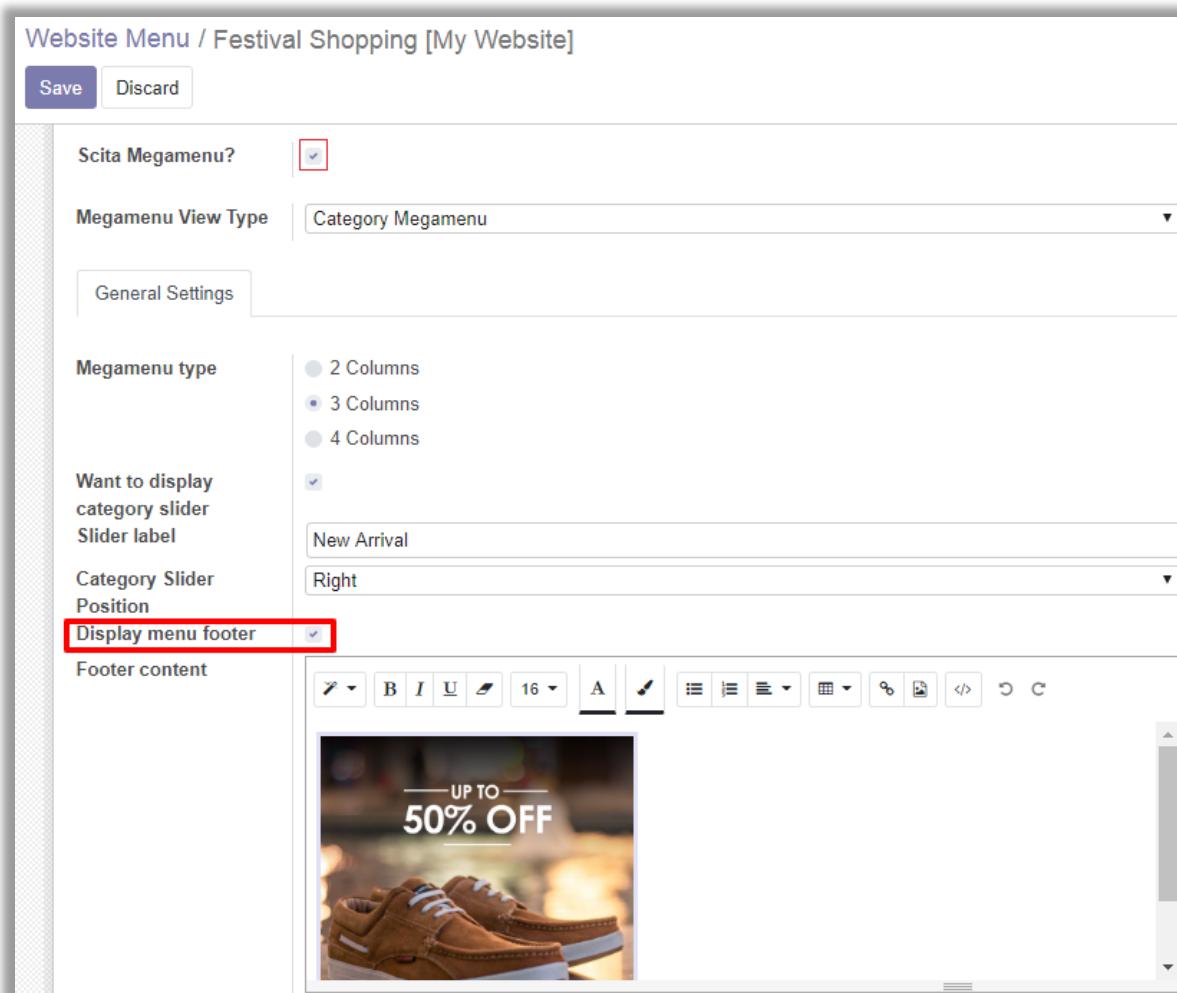

USER MANUAL: Odoo Theme Scita

- You can choose different megamenu types as shown below:
 - **Category Mega Menu:** To display Mega Menu as per the categories.
 - **Category Image Mega Menu:** To display Mega Menu Category Images Menu.
 - **Product Mega Menu:** To display Mega Menu as per the products.
 - **Pages Mega Menu:** To display page categories in Mega Menu.
 - **Service Menu, Service Content Menu and Service Banner Mega Menu.**

Configure General Settings of Mega Menu:

The general settings of mega menu contain below special features:

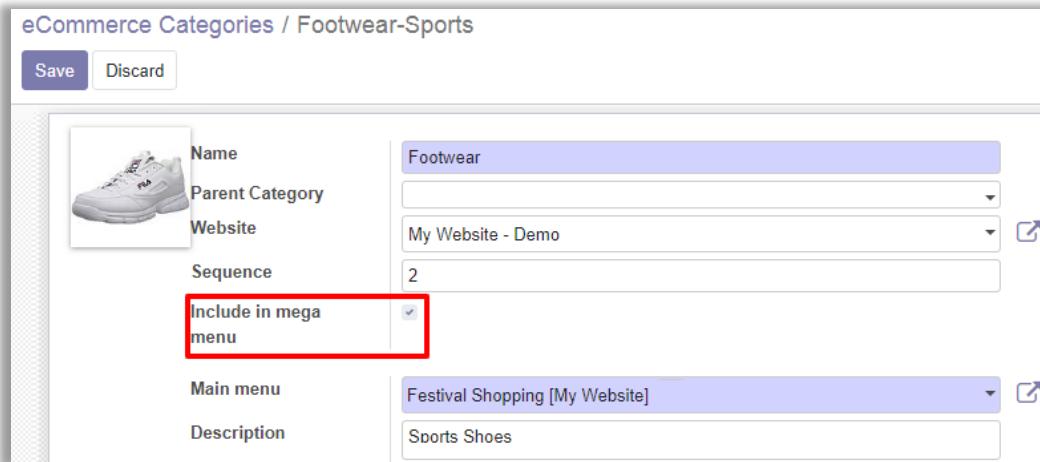

- Select the no. of Columns you want to display in Mega menu.
- You can display the slider as per category sequence in Mega Menu using **Category Slider**. For that, 'tick' the Want to display category slider.
- Insert the Slider Label (Name) which will be displayed on the header of the slider.
- Enable display Menu Footer and enter the text for footer in 'Footer Content' text area.

Configure Categories and Subcategories for Mega Menu

To create a Category:

- Go to WEBSITE Menu → Website → Configurations → eCommerce category. Now click on 'Create' button to create product category.
- By entering a name of category, you must check the **Include in Mega Menu** checkbox.
- You must select Main Menu to display this category.
- To create category, set main menu as menu based on your requirement.
- Give sequence number to decide the sequence.

To create Subcategory:

- Enter name of category and choose a Parent Category name in which you want to create subcategory.
- You can also give sequence number to decide the sequence.

Note: If you enter category name and not select parent category then by default that category will also be included in mega menu. In such a case, that category will be a parent category by default.

Mega Menu view (Frontend View)

Fashion	Furniture	Jewellery
Boots	Designer Desk	Anklet
Trouser	Designer Table	Bracelet
Men	Floor protection	Designer Collections
Women	Modern Lamp	Diamond Ring
Kids	Wood Chair	Fashion Earring
Shoes	Wooden Cabinet	Gold Imitation
Sneakers	Comfort Sofa	Necklace
Denim Jeans	Wooden Dining Table	Vintage Jewellery
Western Top	Wooden Stool	Gold Pendant Necklace

1. The **mega menu** named “Festival Shopping” can be seen.
2. The **three columns** of Parent Category as configured: Fashion, Furniture and Jewelries
3. If the **Category Slider** is enabled with related details that can be seen as per the selection of the position. Here in the category slider, the Parent Category slides will be displayed. (3 sliders)
4. If the **footer** is enabled with the images and details that can be seen in the footer area.

Configuring ‘Shop Page’ Features

Configure ‘Sales Ribbon’

Back End configuration

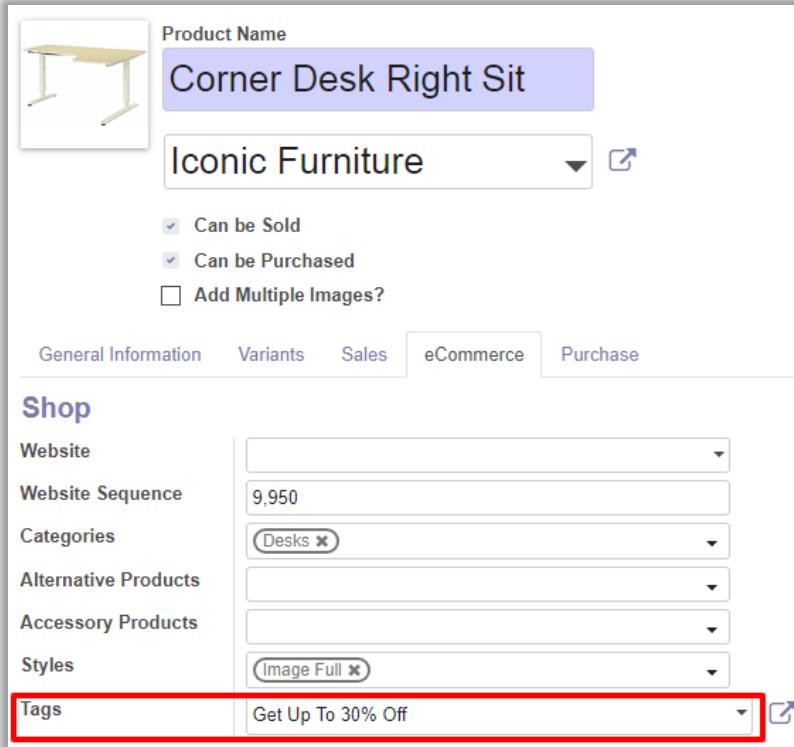

- For ‘Sales Ribbon’, you must configure in backend then only records can be displayed on the frontend.
- To configure go to WEBSITE → Website → Theme Scita Configuration → Product Style Tag.

The screenshot shows the Odoo Website configuration menu. The 'Configuration' tab is selected. A sidebar on the right lists various configuration options: Settings, Websites, Apps, Pages, Redirects, Menus (which is highlighted with a red box), eCommerce, Payment Acquirers, and Saved Payment Data.

- Create a **Product Style Tags** inserting ‘Tag Name’ and ‘Color’.

The screenshot shows the 'Product Style Tags / New' creation form. It has two buttons at the top: 'Save' and 'Discard'. Below them is a table with two rows. The first row contains 'Tag Name' and 'Get Up To 30% Off'. The second row contains 'Color' and a dropdown menu set to 'Yellow'.

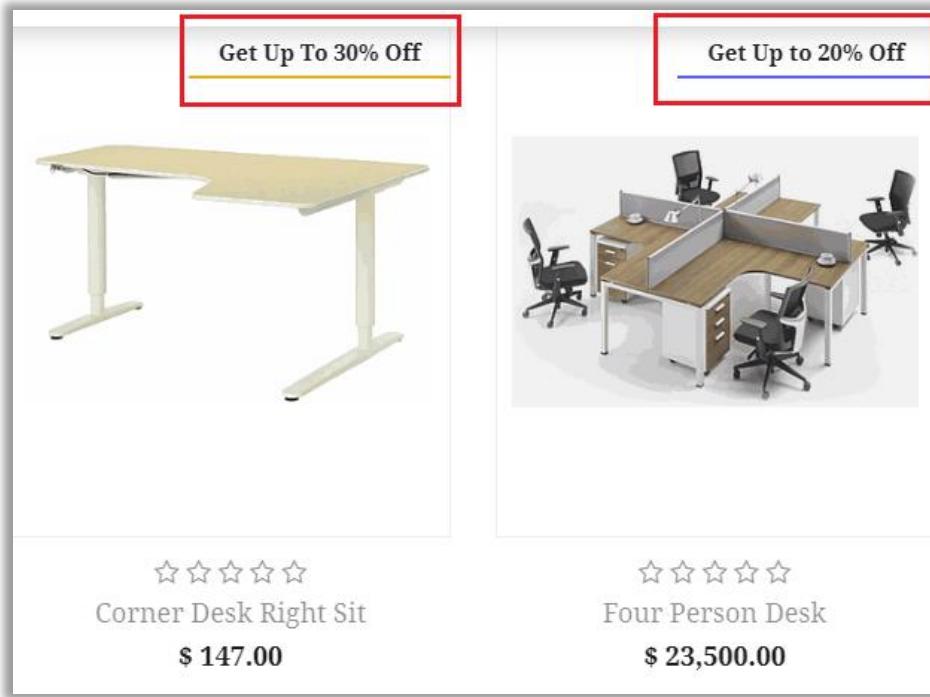

Tag Name	Get Up To 30% Off
Color	Yellow

- After configuring the Product Style Tags (Sales Ribbon), go to **Products → Products**.
- Select any product and click on **eCommerce** tab where you need to select **Tags** for product.

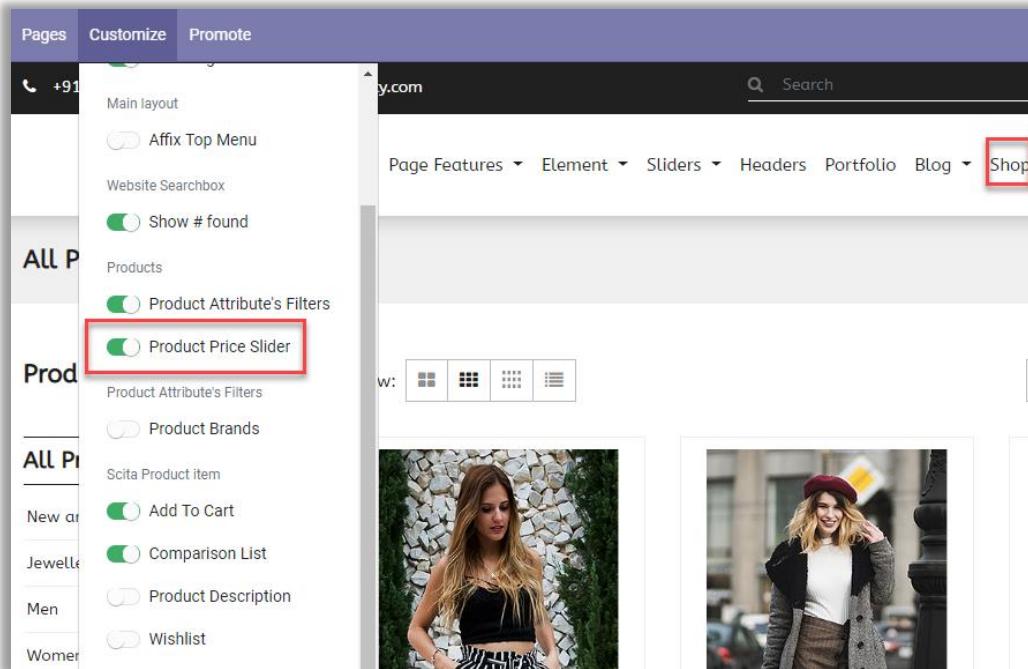

Website view (Front End view)

- After all the configurations, go to website and check the products for which you have selected the Product Tags (Sales Ribbon). You will see the 'Tag' at top right corner of the product.

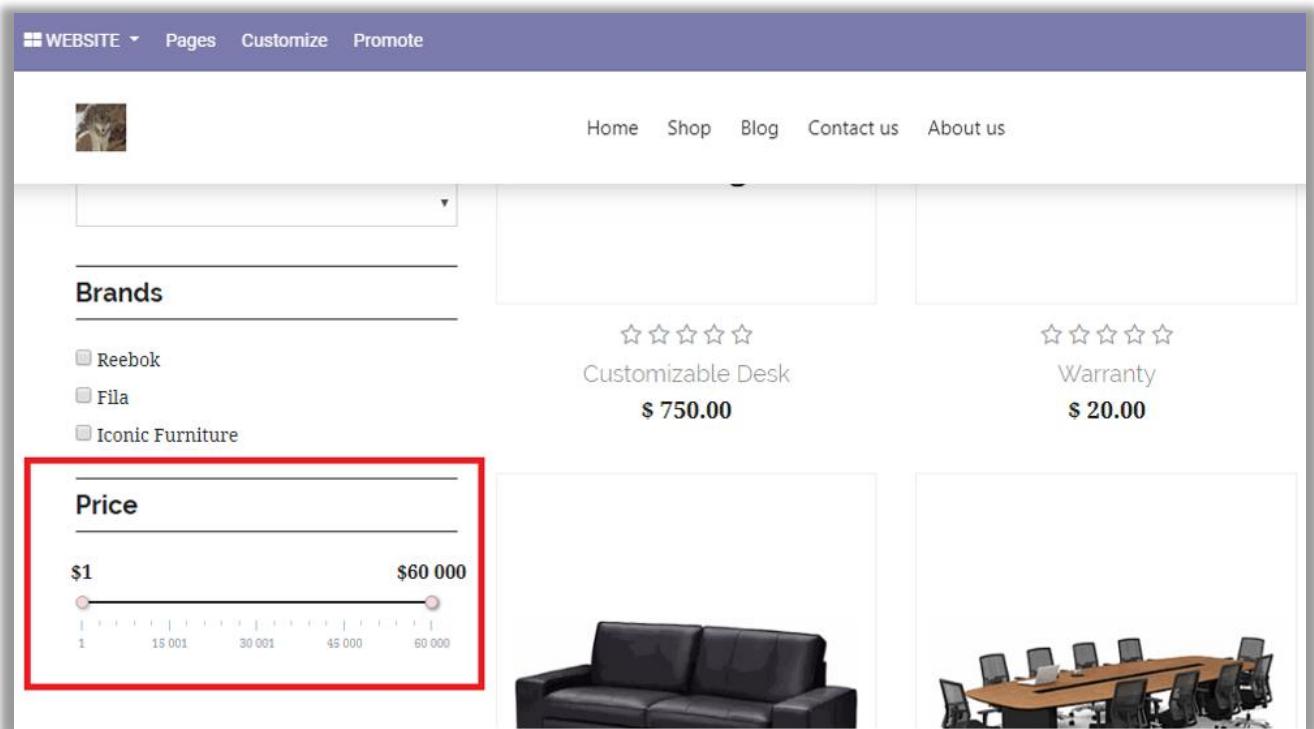

Configure 'Price slider'

- To make 'Price Slider' visible on website, go to **Shop** page on top left corner you will find a **Customize** option.

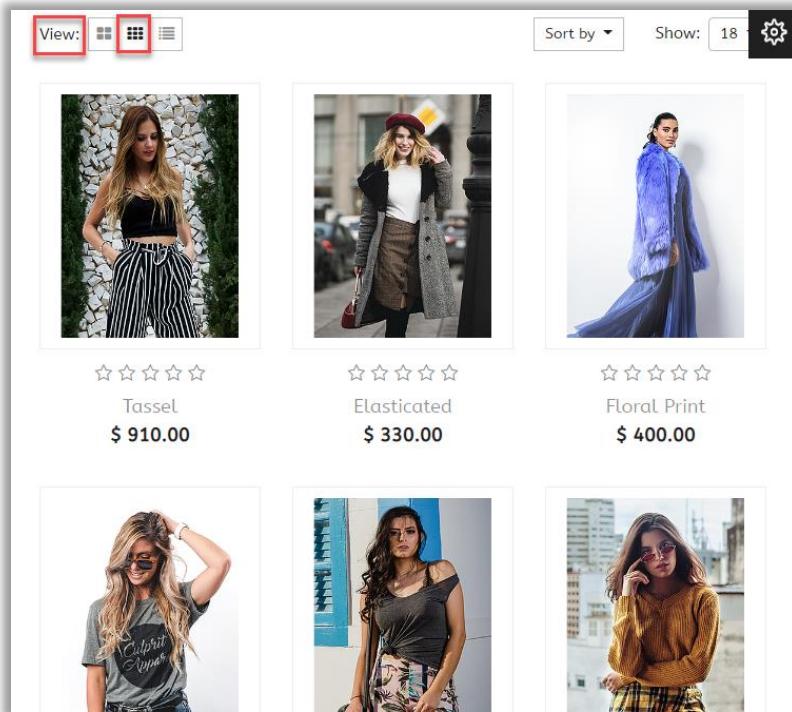

- Click on that and select **Product Price** slider, then price slider section will be visible on the Left side of shop page.

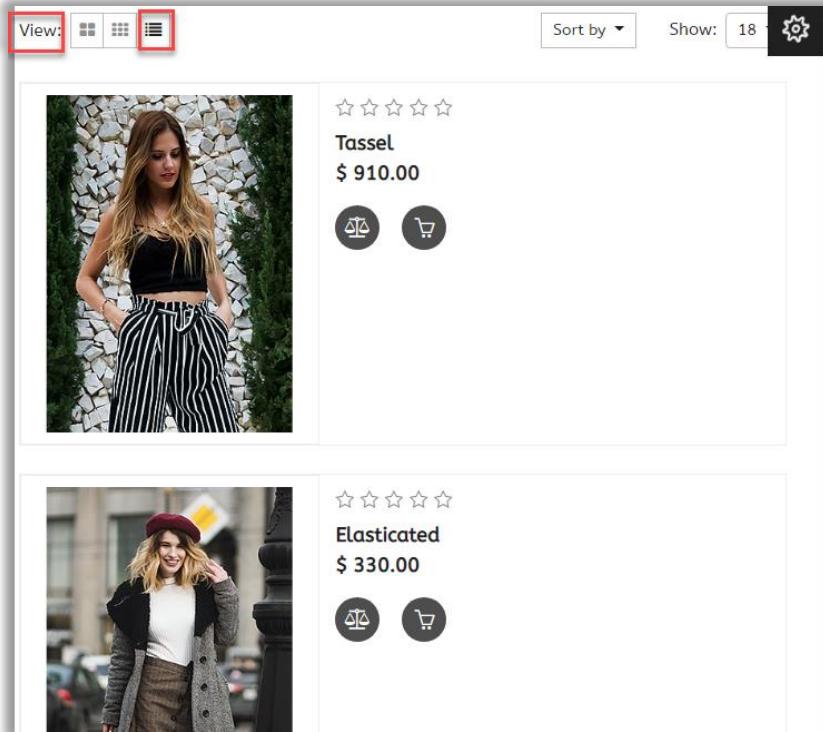

Configure 'Grid View' and 'List View'

- You can see the products of the 'Shop' page in **Grid view** and **List view**.
- You can see the Grid view by customizing in 2, 3 or 4 columns.

Grid View with 3 columns:

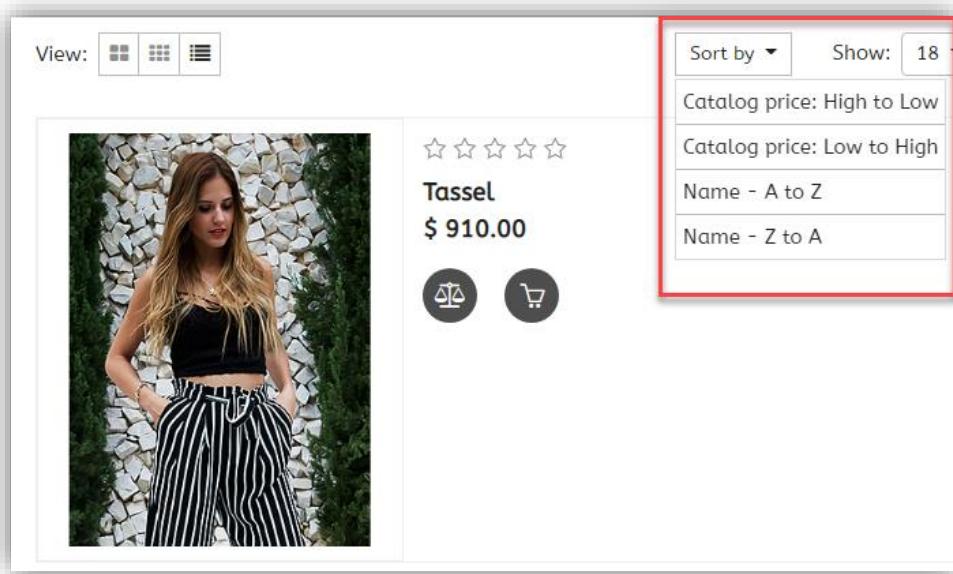

List View:

Configure 'Sort by Feature'

- Sort by feature provide different sorting options like
 - Price: High to Low
 - Price: Low to High
 - Name- A to Z
 - Name- Z to A

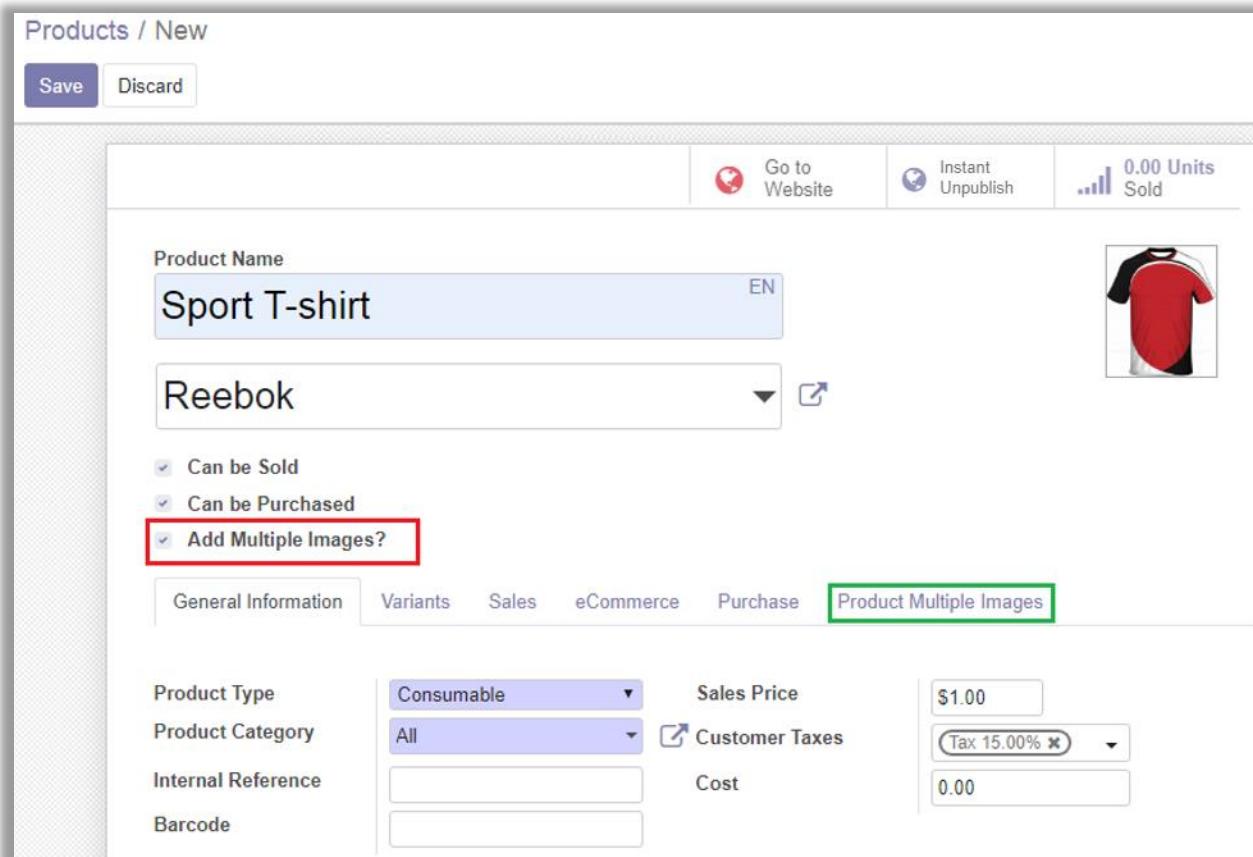

Multiple Image Slider

Multiple Image Slider for a Product (Multi Image Gallery)

You can display product images with different **colors** and **variants** on the Product details page by configuring from the backend. You can also display the different images of the product by customizing the **Slider Effects** and **Thumbnail size**.

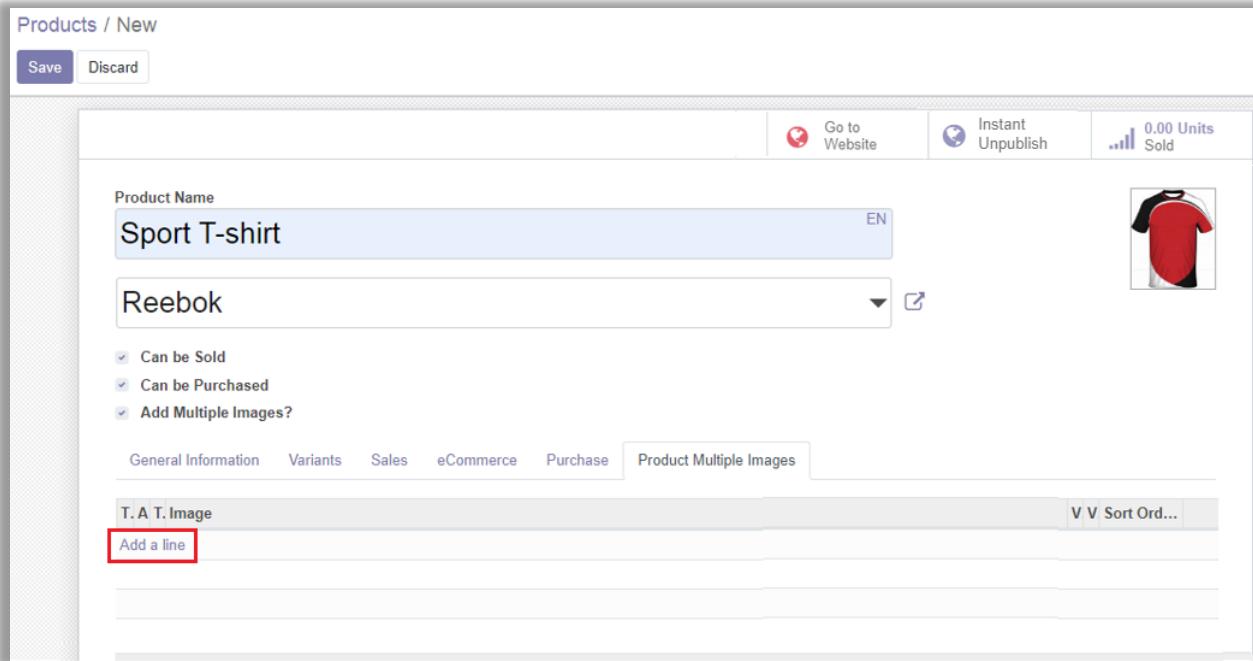

Back End Configuration

- You can display images of different color and variant of a product on Product details page.
- To display Multiple Images, you must insert multiple images during product creation, or you can add the multiple images in existing product by editing it. For that, go to **Products -> Products**.
- To Add Multiple Images to Product:
 - Tick the ‘Add Multiple Images?’ checkbox.
 - Click on ‘Product Multiple Images’ tab.

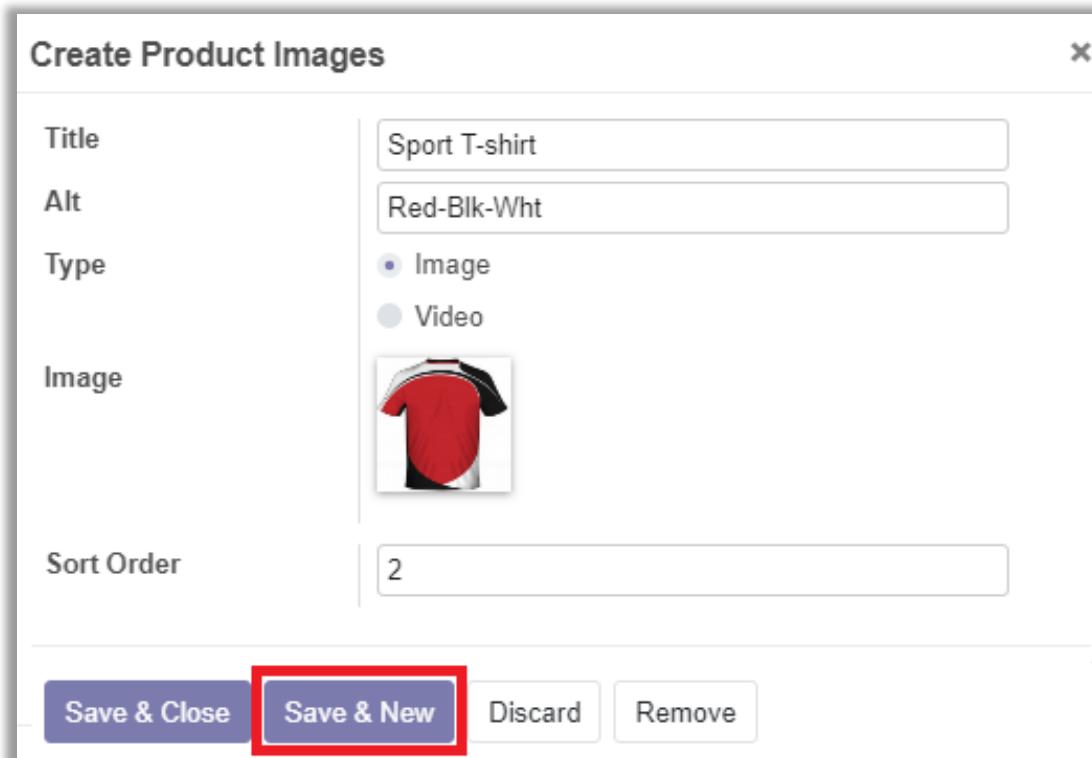

- Click on ‘Add a line’ link to add images for the product.

USER MANUAL: Odoo Theme Scita

- By clicking on 'Add a Line', you will be redirect to "Create Product Image" pop up.
- Give details like Title, Alt text, select Type, upload a relevant file (e.g. Image) and Sort order.
- The details which are inserted in Title & Alt options, those will be displayed on the product text.

- Click **Save & New** button to create a new image. By clicking on **Save & Close** button, the details will be saved.
- Similarly, you can **Add a Video** related to that product. Select type of the video which can be 'YouTube Video', 'Vimeo Video', 'HTML 5 Video'.

Title: []

Alt: []

Type: Image Video

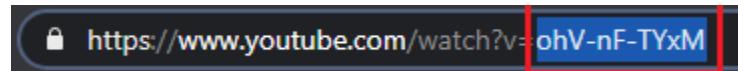

Video media player: **Youtube**

Youtube
Vimeo
Html5 Video

Video ID: []

Sort Order: 0

Note: In **Video ID** text field, you must insert an ID of the video which is available end of the link.

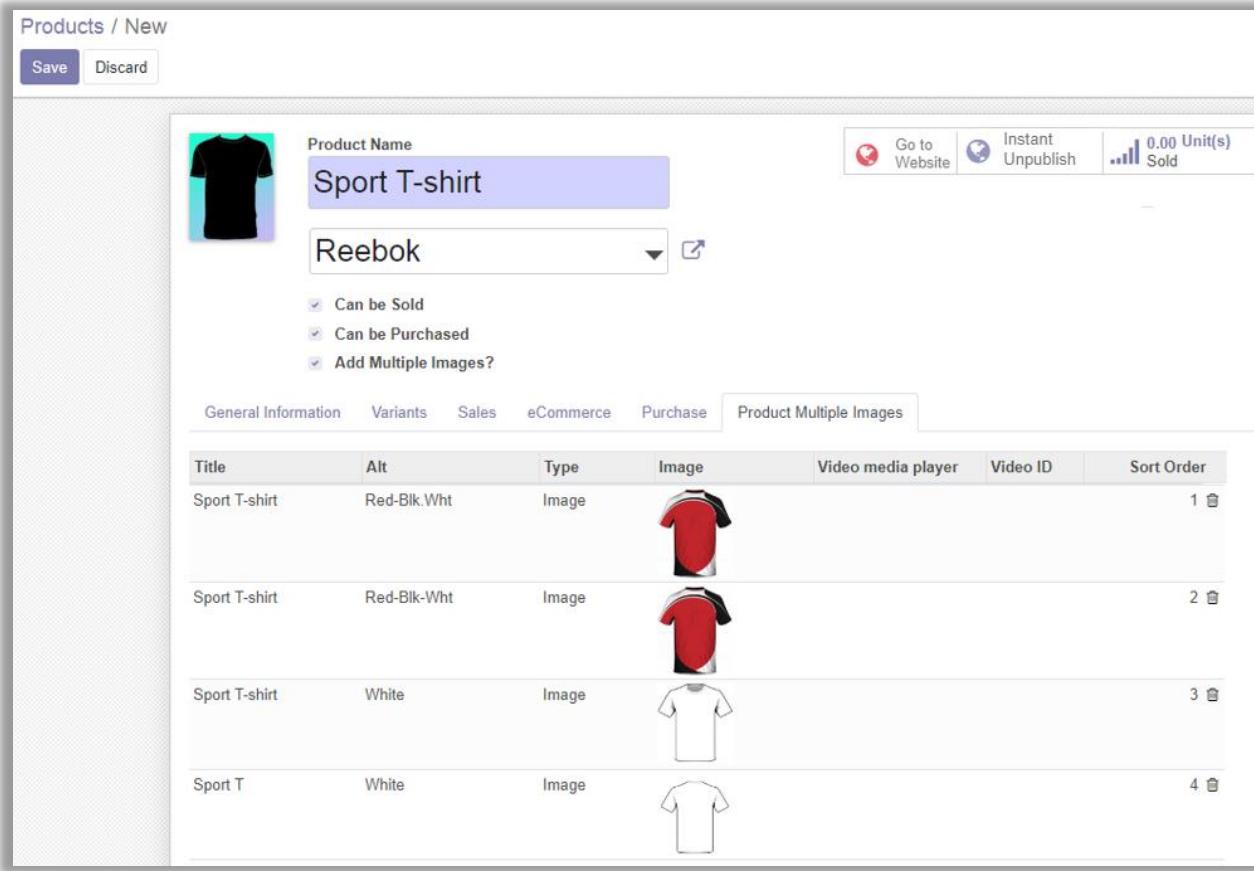

Create Product Images

Title	T-Shirt (Red-Blk-Wht)	EN
Alt	Red-Blk-Wht	EN
Type	<input type="radio"/> Image <input checked="" type="radio"/> Video	
Video media player	Youtube	
Video ID	ohV-nF-TYxM	
Sort Order	0	

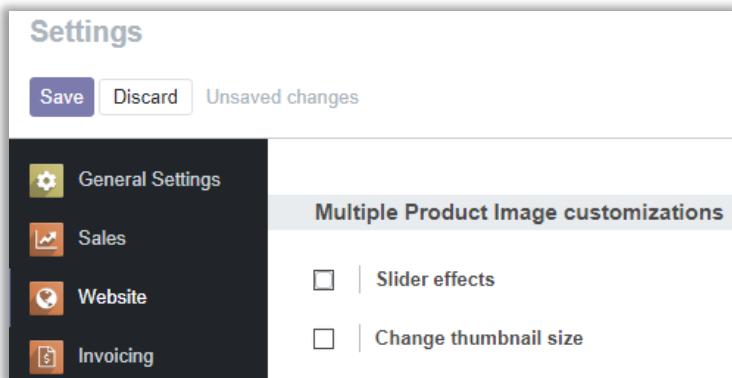

Save & Close **Save & New** **Discard**

- Insert Video ID and then click on **Save & New** button to create a video file.
- By clicking on **Save & Close** button, the details will be saved.

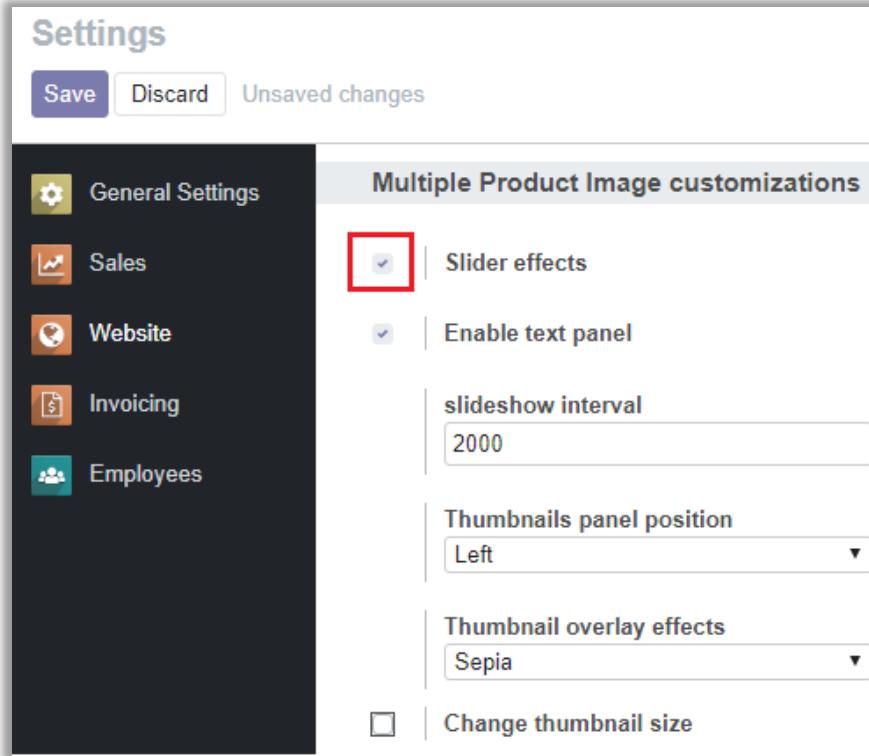

- You can remove any image or video by click on 'Delete' icon.
- Click on the **Save** button to save the multiple images with the configuration.
- Now by clicking on **Instant Publish** button, the product immediately publishes on the web page.

Multiple Product Image customizations

- After configuring the multiple images for a product, you can customize the Multiple Product image.
- For that go to **Menu** → **Settings** → **Website** → scroll down to **Multiple Product Image customization** option.
- Here you will find the two options: **Slider Effects & Thumbnail Size**.

- You can enable the **Slider Effects** to the multiple images of the product on the Shop page.
- By enabling the Slider Effects, you will get below options:
 - **Enable Text Panel:** You can display the product's text details which are inserted during product configurations.
 - **Slideshow Interval:** Insert the seconds to give the interval between two images while playing slideshow.
 - **Thumbnails Panel Position:** Set the Thumbnail panel **Left**, **Right** and **Bottom**.
 - **Thumbnail overlay effects:** Set the Thumbnail panel effects **B/W**, **Sepia** and **Blur**.

This screenshot shows the 'Change thumbnail size' configuration section. It includes two input fields: 'Thumb height' (value: 88) and 'Thumb width' (value: 66).

- You can set the Thumbnail size by inserting height & width.

Website view (Front End View)

- Go to 'Shop' page. Click on any Product. You will find a Multiple image slider if you have added multiple images of image gallery.

1. As per Multiple Product image customization, you will get the **Slider Effects** option where you can play the slider, zoom in – out the image and view the slider in Full page view.
2. You can see the position of the Thumbnail panel and size of the images in thumbnail as per the backend customization.
3. If you have enabled the 'Product Text' option, you will get the Product's text details as per inserted in Product configuration.

Delivery Zip Code configuration

Theme Scita Configuration

Shop by Category

- The “Shop By Category” menu is given to display the categories.

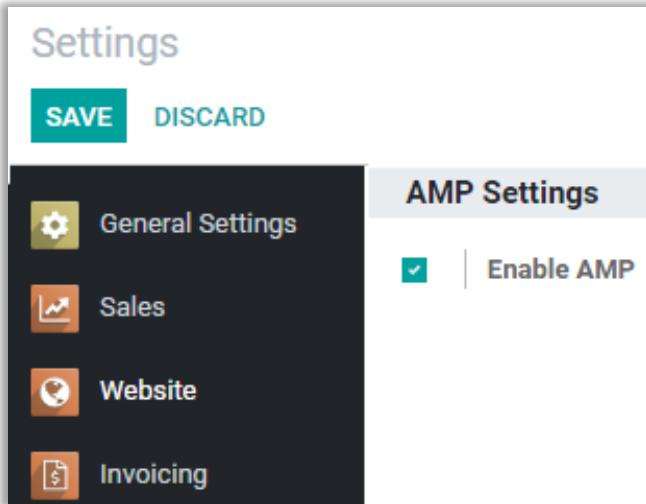

- By clicking on “Shop By Category” menu, your customers will be redirected to **Categories** page.

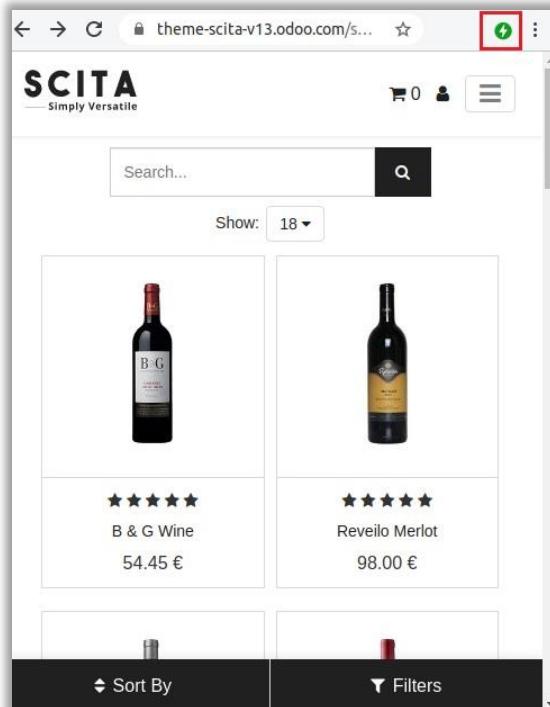

AMP: Accelerated Mobile Page

- Making the webpage as AMP (Accelerated Mobile Pages) helps the publishers to improve the speed and readability of their website. Theme Scita has **Shop** and **Product detail** AMP pages that will help you provide the best customer experience.

- In Theme Scita, you can enable the AMP from the backend. Go to: Website → Website → scroll to AMP Settings.
- The **Shop** and the **Product details** pages are with the AMP.

- When the customer searches the products related to your website from the Mobile, chances are your AMP page will rank higher than your competitors normal CMS pages.
- If your web page is **AMP enabled**, you will get the AMP enabled icon.

Note: Due to AMP has some limitations, so the MegaMenu of Theme Scita will not be supported under AMP.

Industry- Ready to Use Demo

- We have provided the Theme Scita Snippets demo as per different business and related themes. You can get it by clicking on Theme Scita Demo.

The screenshot displays four distinct storefronts under the 'Industry' theme:

- Gift Articles:** Features a grid of gift items like teddy bears, flowers, and wrapped boxes. It includes sections for 'Best Christmas Gifts and more' and 'New winter arrivals 10% OFF'.
- Ecommerce - Stationery:** Shows a stationery shop with categories like 'Top Books Categories' and 'Deals of the day'. It features a blue backpack and various school supplies.
- Sports:** Dedicated to sports apparel with a large image of a soccer ball and shoes. It includes sections for 'Ultra Cross Sports Wears' and 'Products'.
- Wine - Shop:** Displays a collection of wine bottles and glasses. It features a section for 'Vintage Wine Collection' and 'Delightful Wine'.
